COMMERCIAL ITEM DESCRIPTION

PAPER, XEROGRAPHIC

The General Services Administration has authorized the use of this Commercial Item Description.

This commercial item description covers grain long, plain, white copier paper cut 8-1/2 x 11 inches, 8-1/2 x 14 inches or other sizes as specified for use in dry toner xerographic copiers.

Salient characteristics. Paper shall conform to the physical properties of the Government Paper Specification Standard JCP 0-60 and perform satisfactorily on all dry toner xerographic copiers. Operating performance shall be checked on a Xerox ® 9200 at atmospheric conditions of 70° F. $\pm$ 10° F. and relative humidity at 50 percent, range 40 - 60 percent. There shall be no more than one paper caused jam per 5,000 copies when copying this page as an original.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered material. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing and marking. The paper shall be packaged in accordance with normal commercial practice and shall assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.
