COMMERCIAL ITEM DESCRIPTION

LAMP, INCANDESCENT
(TRADE NO. 6.6A/T14P)

The General Services Administration has authorized the use of this commercial item description.

This description covers an airport runway incandescent lamp.

Salient characteristics:

Clear T-14 bulb
Watts - 200
Amperes - 6.6
Filament design - C 13
Maximum overall length - 5-3/4 inches
Average rated life - 75 hours
Approximate initial lumens - 4,900
Burn base down only
Base - medium perfocus

The lamp shall be tested for conformance to the salient characteristics in accordance with the applicable test method requirements of Federal Specification W-L-101.

Workmanship. The lamp shall not have bent contacts, slight or complete discoloration of the lens or reflective coating, small bubles in the glass, cracked glass, peeled reflective coatings, and open or shorted filaments.

The issue of W-L-101 in effect on the date of solicitation shall be used to determine compliance with these requirements.

Regulatory requirements. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practicable.

Preservation, packaging, packing, labeling, and marking. The preservation, packaging, packing, labeling, and marking shall be as specified in the contract or order.

Federal Specification W-L-101 is available from the Specification Section, WYSIS, General Services Administration, 7th and D Streets, SW, Washington, DC 20407.

Note. NSN is 6240-00-196-4471
