COMMERCIAL ITEM DESCRIPTION

BRUSH, DUSTING, LENS AND PHOTOGRAPHIC NEGATIVE

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification H-B-1654, size 1.

Salient characteristics:

Hair. Camel hair (natural squirrel tail hair) or a blend of soft animal hairs of approximately 40 percent pony hair and 60 percent ox ear hair. The hair shall be thoroughly washed and sterilized in accordance with commercial practice using either boiling water, dry heat or autoclaving. The hair shall not be artifically colored.

Block (handle). The block may be close grained, straight grained wood, or general purpose impact resistant plastic. Commercially acceptable for the purpose intended.

Ferrule. The ferrule shall be metal, plated to resist corrosion, and a minimum of 0.015 inch thick. The ferrules shall be lock seamed, soldered or welded in accordance with the manufacturer's regular commercial practice.

Construction. The hair shall be set in vulcanized hard rubber or setting compound, and shall break before separating from the rubber or setting compound. The handles, ferrules and vulcanized hard rubber or setting compound containing the hair shall be fastened together with pins, rivets or staples, in accordance with the manufacturer's regular commercial practice.
