COMMERCIAL ITEM DESCRIPTION

WATER-RESISTANT GUMMED TAPE

The General Services Administration has authorized the use of this commercial item description.

This description covers water-resistant gummed paper tape which is used for fiberboard box closures.

Salient characteristics.

All-purpose corrugator's tape shall be smooth or creped kraft with water-resistant laminate reinforced with fiberglass and water activating adhesive.

The color shall be opaque brown; the width, 2 inches minimum; length, 1,000 feet minimum; and the nominal core inside diameter, 1-3/8 inches.

Workmanship. The tape shall be clean and free from folds, sharp creases, tears, cuts, and holes. The adhesive coating shall cover the entire area of the side to which it is applied. Tape shall be cleanly cut without nicks or ragged edges.

Regulatory requirements. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practicable.

Preservation, packaging, packing, labeling, and marking. Preservation, packaging, packing, labeling, and marking shall be as specified in the contract or order.
