DATA ITEM DESCRIPTION

TITLE: TRAINING PROGRAM STRUCTURE DOCUMENT

Number: DI-ALSS-81521A
AMSC Number: N7343
DTIC Applicable: No
Office Of Primary Responsibility: N/AS/PMA205
Applicable Forms: None
Approval Date: 30 July 1999
Limitation:
GIDEP Applicable: No

Use/relationship: The Training Program Structure Document provides training planning data and training course control data. This information is relative to long-range training program resource requirements, for personnel and equipment, and their implementation. This training data product documents the detailed configuration baseline of a training course.

a. This Data Item Description (DID) contains the preparation instructions for the content and format of the Training Program Structure Document.

b. This DID contains the format, content, and intended use information for the data product resulting from the performance requirements described by 3.2.5 of MIL-PRF-29612A, and is applicable to the acquisition of training data products. Data product performance evaluation criteria are specified in 4.3.5 of MIL-PRF-29612A.

c. It is not intended that all the requirements contained herein should be applied to every program or program phase. Portions of this DID are subject to deletion tailoring depending upon the program phase in which it is applied in the contract. Any individual data requirement contained in this DID is subject to deletion tailoring.

d. This DID supersedes DI-ILSS-81521.

Requirements:

1. Format. The format of data contained within this DID is as follows:

    a. For paper-based products contractor format is acceptable.
    b. Standard digital data shall comply with the content and format requirements specified in the Defense Data Dictionary System (DDDS).

2. Content. The Training Program Structure Document shall contain the following:

2.1 Front matter. The content of front matter shall be in accordance with Appendix A of MIL-PRF-29612A.

2.2 Part 1: Training planning data. This data shall provide a description of the sources of the training needs and the training strategies to satisfy those needs by course, training program, and Service component for peacetime and mobilization.

2.2.1 Training concept data. This data shall contain the following:

    a. The identification of the documents which provide the training program mission needs

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:49Z
Check the source to verify that this is the current version before use.

statements.

b. The rationale for the training requirement (e.g., new systems, change in occupational specialty structure, change in threat and doctrine, organization and mission changes in training policy, methodology or field performance discrepancies, tasking by higher authority, scheduled course review, surveillance/external feedback resulting from the training appraisal program, Engineering Change Proposals (ECPs)/weapon system change authorizations, changed course length).

c. A description of the training strategy for both the active and reserve components during peacetime and mobilization, including active/reserve and peacetime/mobilization differences, which includes the status of training for equipment that is being replaced in the active component but utilized in the reserve component. Include the following for resident and nonresident training:

(1) A description of each skill level or pay grade which explains the training available for active and reserve personnel.
(2) A description of the courses for specialty skills (e.g., Additional Skill Identifier (ASI), Special Qualification Identifier (SQI), Air Force Specialty Code (AFSC), Navy Enlisted Code (NEC), Navy Officer Billet Classification (NOBC), or Military Occupational Specialty (MOS) Army Officer/Warrant Officer).
(3) A description of the training planned for transition or replacement training.
(4) A description of the training to accomplish occupational skill area merger training.
(5) A description of the functional courses.
(6) A description of the programs and products for unit integration and sustainment training.

d. The current training which will be deleted by the new training program.

e. The alternatives to accomplish the training requirement if additional resources required to support the training concept are not provided.

2.2.2 Impact if development/change/revision is not undertaken. The impact data shall provide a clear and precise statement of the impact on mission requirements and capabilities if the development/change/revision is not undertaken.

2.2.3 Milestone chart. The milestone chart shall provide a time-phased relationship commencing with the earliest lead time resource requirement through establishment of training capability. Projected start/completion dates for each key event shall be indicated.

2.2.4 Course milestone schedule. The schedule shall specify events, length, instructor contact hours, class sizes, Interservice Training Review Organization (ITRO) codes, contract codes, academic hours, and dates of programmed changes. The milestone schedule shall include the following:

a. Individual Training Plan (ITP) and course administrative information (e.g., ITP name, course titles, numbers, types, dates).
b. Training development milestones.
c. System related milestones. System identification, collective and individual training plan submission date, and first unit equipped dates for each system supported by the ITP.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:49Z
Check the source to verify that this is the current version before use.

d. Training development resource information (e.g., workload factors in the areas of specialties, programs of instruction, and courses).
e. Course resource information (e.g., length, hours, size, student input) used for determining resource requirements.

2.2.5 Resource estimate data. This data shall provide descriptions of the equipment, ammunition, facility, and funding requirements that are not currently available to the installation. The estimate will be in narrative form and will include fiscal years in which resources will be required. The estimate shall address the following:

a. Training development resources.
b. Resource requirements that are not available.
c. Unfinanced requirements in the program years.
d. Manpower requirements not addressed in the milestone schedules or the resource narrative.
e. Constraints.
f. The estimated costs associated with any new or modified training.
g. Estimated requirements for all ammunition and related training devices or simulators required for one iteration of each course.
h. A resource summary supplement that identifies other requirements (e.g., construction, maintenance, repair).

2.2.6 Follow-on training recommendations. This data shall provide the contractor's recommendations for any follow-on training program to be conducted in support of the system/equipment. Such recommendations shall include results of any trade studies made to determine cost-effectiveness of various methods of conducting training (current training programs and capabilities may be used as a baseline for the development of this information).

2.3 Part 2: Training course data. The training course data shall provide descriptions of the training content (e.g., subject, topics, tasks), training material, types and duration of instruction, and resources required to conduct both peacetime and mobilization training, and shall be documented in sections as follows:

2.3.1 Course accounting. The course accounting data shall include the following information:

a. Course title.
b. Course Identification Number/Production Identification Number/Production Assignment Number (CIN/PIN/PAN).
c. Course purpose/goals.
d. Course description.
e. Prerequisites (a requirement the student must possess before attending the proposed training).
f. Course approval information.
g. Course phase of training.
h. Grading procedures.
i. Status upon graduation.
j. Instructional strategy (e.g., programmed learning, traditional learning, small group learning).
k. A breakout of academic training, aircrew training devices, and flight hours/sorties by

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:49Z
Check the source to verify that this is the current version before use.

type aircraft.
l. Class start date.
m. The agency from which quotas to the course must be obtained.
n. Type training. (Use alphanumeric code; i.e., A1, C1) (See specific Service formal schools catalog of courses for guidance on codes.)
o. Location of training. Training locations to include the specific school and its geographic location.
p. Security requirements (e.g., training equipment, course materials, training space, clearance required to attend).
q. Military assistance program articles and service list number. (This is a seven position alphanumeric code used to identify a course used for foreign military training.)
r. Training development proponent school for analysis, design, development, and for instructor billets include data for installation, city, state and zip code of the proponent school.
s. Course proponent (e.g., office of primary responsibility, course model manager).
t. The agency which bears the cost of temporary duty incidental to attendance at the course.
u. Other Service course number.
v. Those costs that are directly related to the course of instruction.
w. Training track.

2.3.2 Course administrative data. Course administrative data, to include data for peacetime and mobilization versions of the course, shall consist of the following:

a. Course length to include hours, days, and weeks.
b. Breakdown of classroom and laboratory hours.
c. Class start date.
d. Contact hours as follows:

(1) Instructor Contact Hours (ICH).
(2) Adjusted course ICH.
(3) Course unique ICH.
(4) Adjusted shared ICH.
(5) Contracted ICH.

e. Class size, include data for maximum, optimum, and minimum class sizes.
f. The occupational skill area, branch, functional area, Area of Concentration (AOC), Skill, Additional Skill Identifier (ASI), or Special Qualifications Identifier (SQI) for which the course provides qualification on training.
g. The specific target audience for which the course is designed.
h. Individual training plan title.
i. Class frequency.
j. Training task list.
k. Course code (e.g., course type code, ITRO code, contract code, Marine Corps Service School Codes (MCO P1080.20, JUMPS/MMS Codes Manual) other Service number).
l. Academic hours that include a breakout of course unique, shared, contracted, and conducted per week; and a breakout of practical application, performance evaluation, and written examination conducted per week.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:49Z
Check the source to verify that this is the current version before use.

m. Additional information essential for selection of students (i.e., special approval), preparation of orders (i.e., course length), or for explaining a course's phases.
n. A list of environmental/hazardous materials.
o. A list of high risk/safety issues.
p. Work center identification.

2.3.3 Course training standards. The course training standards data shall include the following information:

a. Training elements to be accomplished.
b. Standards of accomplishment for each element.
c. Course map.
d. Course sequence.
e. Training schedule matrix.

2.3.4 Instructional media data. (Media are the delivery vehicles used to present instructional material or basic sensory stimulus presented to a student to induce learning. In other words, the means used to give information to the students.) This data shall include a description of and identifiers for the following:

a. Instructor/tutor including:

(1) Lecturer.
(2) Demonstrator.
(3) Tutor/Coach.

b. Traditional audiovisual devices including:

(1) Chalkboards.
(2) Transparencies.
(3) Overhead projectors.
(4) Slides.
(5) Microfiche.
(6) Film strips (silent/pre-narrated).
(7) Video tapes.
(8) Slide/workbook/tape recorder combinations.

c. Interactive Multimedia Instruction (IMI) products including:

(1) Interactive Courseware (ICW).
(2) Electronic publications.

(a) Electronic guides.
(b) Interactive Electronic Technical Manuals (IETMs).

(3) Electronic testing.
(4) Simulation.
(5) Electronic management systems including:

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:49Z
Check the source to verify that this is the current version before use.

(a) Electronic Performance Support System (EPSS).
(b) Computer Aided Instruction (CAI).
(c) Computer Managed Instruction (CMI).
(d) Electronic job aids (e.g., templates, macros, etc.).

d. Printed materials including:

(1) Workbooks.
(2) Study guides.
(3) Job aids.
(4) Training manuals.
(5) Programmed instruction booklets.
(6) Technical orders.

e. Training devices, simulators and equipment. This data shall include descriptions of the device requirements, mission statement and objective, and an explanation of the sortie/exercise elements to be trained using the following:

(1) Simulator.
(2) Operational hardware.
(3) Hybrid.
(4) Part-task trainer.
(5) Computer.

2.3.5 Operational training. This data shall include the following information:

a. Special instructions and restrictions on operational training.
b. Explanation of sorties/exercises (e.g., time, number).
c. Mission outline.
d. Element to be trained.

2.3.6 Course learning objectives. This data shall include a listing of Terminal Learning Objectives (TLOs) taught in the course.

2.3.7 Resources. This data shall include the following information:

a. Location of facilities.
b. Student reporting instructions.
c. Instructor staffing requirements.
d. Occupational field(s) of instructors.
e. Multiple instructor requirements.
f. Classroom and simulator layout.
g. Those billets required to operate the school, other than instructors and instructor supervisors, for this course.
h. Student library of reference materials.
i. Instructor accessability.
j. Facility usage requirements per student.
k. Range requirements.
l. A statement regarding availability of government billeting.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:49Z
Check the source to verify that this is the current version before use.

m. A statement regarding availability of government messing.
n. A description of all facilities or ranges required to conduct one iteration of the resident training program, without regard to the location or availability of facilities, and shall include the following:

(1) Service unique category code.
(2) The type of special purpose classrooms or facilities, unit of measure, and number of units.
(3) The number of hours of facility usage required per student for both peacetime and mobilization.

2.3.8 Explanation of terms. The explanation of terms shall include terms unique to the training command or training system.

2.3.9 Curriculum outline of instruction. The outline shall provide detailed training data for each lesson. The outline shall provide the sequence in which the instruction is to be presented and shall contain the following:

a. Purpose (brief statement of purpose of the lesson).
b. Lesson title, scope, and designator.
c. Academic hours by type of instruction (e.g., peacetime, mobilization, practical exercise, exam, integrated or not integrated).
d. Training tasks, subjects, conditions, standards, numbers, supporting activity, and whether the lesson teaches identified training tasks to a standard.
e. Course learning objectives.
f. Terminal Learning Objectives (TLOs).
g. Topic learning objectives.
h. Enabling Learning Objectives (ELOs).
i. Method of instruction.
j. Training Support Equipment (SE) and materials.
k. An identification of other documentation required for the performance of a specific training task, item, or function.
l. Instructor signature and date line.
m. School director's name, signature, and date line.
n. Training annexes (e.g., mandatory, examination, common core) with groupings of learning objectives.
o. Student library.
p. Time allotments in hours for each section, topic of instruction, specific lesson or module, or Program of Instruction file.

2.3.10 Course summary and presentation schedule. The summary and schedule shall contain an outline of each major section or topic of instruction within the training course and the following:

a. Academic time for all annexes or areas (classified and unclassified), including lecture, conference, discussion, practical application, performance evaluation, written examination.
b. Administrative time (e.g., in-processing, out-processing, physical fitness training, commandant's, open, excluded, graduation, inspections, other).

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:49Z
Check the source to verify that this is the current version before use.

c. Hours by security classification.
d. Classroom and practical application time to include hours and percentage of total time.
e. Total time allocated for each topic of instruction.
f. Total course hours.
g. Scheduled order of presentation to include hourly, daily, and weekly program for the entire course.
h. Separate schedule listings for classroom, training equipment, and laboratory use.
i. Recommended lesson sequence of instruction by day for each Program of Instruction file number (lesson), and the number of hours.

2.3.11 Individual training standards. This data shall provide a list of Individual Training Standards (ITS) included in this course.

2.3.12 Profile item-to-topic objective assignment chart. This chart shall provide a cross-reference between the Personnel Performance Profile (PPP) items or training task numbers and the corresponding lesson plan locations for presenting the PPP items or training task numbers, learning objectives, test items, and an index of lesson file numbers.

2.3.13 Fault applicability list. This list shall provide a description of all planned equipment faults, to include prefaulted modules, approved for use in the course to support the learning objectives.

2.3.14 Resource requirements list. This list shall provide descriptions of equipment, equipment refurbishment, publications, audiovisual aids, training material, facilities, and personnel required for conducting the course. The items shall be classified as either Government Furnished Equipment (GFE) or Contractor Furnished Equipment (CFE) and shall be listed separately. The amounts required for expendable and non-expendable materials shall be included. The information on resources required to conduct training shall include the following:

a. The ammunition (e.g., live, dummy, inert, training devices, simulators) requirements include the following:

(1) Identification code.
(2) Item description.
(3) Supported lesson file number.
(4) Quantity requirement for peacetime and mobilization, and the distribution requirement per student, per class, and the ratio.

b. The operational equipment requirements (any equipment required for an operational mission used in support of the training course) include the following:

(1) Number (e.g., line item number, national stock number).
(2) Nomenclature and description.
(3) Supported lesson file number.
(4) Quantity requirement for peacetime and mobilization, the distribution requirement per student, per class, and the average equipment-to-student ratio.

c. Training aids, devices, and substitute requirements for peacetime and mobilization, include the following:

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:49Z
Check the source to verify that this is the current version before use.

(1) Number (e.g., line item number, national stock number, device number, part number).
(2) Nomenclature and description.
(3) Supported lesson file number.
(4) Quantity requirement for peacetime and mobilization, and the distribution requirement per student, per class, and the ratio.
(5) Cost per unit.
(6) Peacetime savings per iteration.
(7) Prioritized ammunition conservation measures during mobilization.
(8) Part number and nomenclature of equipment that is replaced/substituted.
(9) The description of any substituted item, quantity, and cost for nonstandard equipment and range usage during mobilization.

d. Quantity and type of fuel.
e. Miscellaneous items (e.g., requirements which do not fall under any of the above listed categories).

3. Standard digital data. Standard digital data shall be delivered for the Standard Data Elements (SDEs) marked with an [X] in the "Required" box in Table 1.
