MILITARY SPECIFICATION

# GRINDING MACHINES, ABRASIVE BELT, PLATEN, WET AND DRY TYPE

This amendment forms a part of Military Specification MIL-G-80176B dated 15 November 1982, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 5

3.4.2, line 6: Add the following: The frame for class A machines shall provided a graduated scale attached to the frame readable at the operator's normal work position. The scale shall be graduated in 1 degree increments indicating the angular setting from the 0° vertical to 90° horizontal position.

PAGE 6

3.4.7.1.2, line 3: Add the following: All class A, size 6 and 10 machines shall provide a graduated scale attached to the table and readable at the operator's normal work position. The scale shall indicate, in 1 degree increments, and upward tilt of not less 15°, and a downward tilt of not less than 45°.
