# COMMERCIAL ITEM DESCRIPTION

## SPATULA, BRAIN, Davis, Malleable, 7 inch

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers malleable spatulas of the Davis design suitable used in brain surgery.

Salient characteristics.

General. Shall be malleable spatulas of the Davis design, used in brain surgery. The spatulas shall be capable of being readily hand-formed repeatedly without breaking.

Characteristics. The spatulas shall be 7 inches long and 0.037 inch thick. The spatulas range in width from 1/4 inch to 1-1/2 inches, as follows 1/4, 3/8, 1/2, 5/8, 3/4, 1, 1-1/4, and 1-1/2 inches. The spatulas shall be flat, with both ends rounded equally.

Material. The spatulas shall be fabricated of nickel silver, Alloy 2 per ASTM B122-81a, annealed. The spatulas shall not be plated, and shall have a mirror or satin finish. As an alternative, annealed material having 60-63% copper, 17-19% nickel, and 17-22% zinc composition may be used.

Performance. The material and corrosion tests are as specified herein.

Workmanship. The brain spatulas shall be free from defects which detract from their appearance or impair their serviceability.

PRODUCT QUALITY LEVEL

Visual and dimensional examination. Shall be examined to verify that design, construction and workmanship are in accordance with applicable requirements.

Materials. The supplier shall be responsible for performing tests to assure that materials are in accordance with requirements specified.

Unit. Each (EA). One brain spatula of the size specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for tests. Sampling for tests shall be conducted in accordance with MIL-STD-105 and as specified herein. The unit of product for test purposes shall be one Davis brain spatula.

Corrosion test The test shall be as specified in Federal Specification GG-I-526. The inspection level shall be S-2 and the AQL shall be 1.0%, per Mil. Std. 105. on

Contractor certification The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations

Recovered materials The offeror contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and or contents thereof under normal shipping conditions,
