COMMERCIAL ITEM DESCRIPTION

DISH, CULTURE, PETRI, (Sterile, Disposable)

The General Services Administration has authorized the use of this commercial item description in preference to MIL-D-37738.

This commercial item description covers 150 x 15 mm size sterile, plastic, disposable petri culture dishes, with covers, that are suitable in performing bacteriological cultures and biological assays.

Salient characteristics:

Petri culture dishes shall be fabricated from polystyrene that shall be clear and transparent, and free of toxic lubricants and other additives which would adversely affect the growth of bacterial cultures.

Petri culture dishes shall be circular and shall consist of bottom sections (i.e., the dishes) and flanged covers.

The bottom sections (dishes) shall provide for a uniform media depth and shall sit flat on a plane and level surface. The covers shall fit over and be easily removed from the bottom sections by using one hand. Maximum limits across the dish shall be 0.024 inches warpage; 0.035 inches concavity and 0.030 inches convexity.

The exterior surfaces of the petri culture dishes shall be able to accept clear and clean markings with a wax or crayon-type pencil.

The diameter of the rims of the bottom sections shall be 143 $\pm$ 1.0 mm. The inside depth shall be 12 mm minimum.

The petri culture dishes shall be sterile. The method and efficacy of sterilization shall be acceptable to the Food and Drug Administration (FDA).

Workmanship. The petri culture dishes shall be free from defects which detract from their appearance or impair their serviceability.

Unit. Package (PG). One package containing one hundred petri dishes (ten bags of ten dishes each, or five bags of twenty dishes each, or four bags of twenty-five dishes each), as specified, constitutes one unit. The bag containing the ten, twenty or twenty-five dishes shall be a sealed plastic bag which will maintain sterility until manually opened.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

The following National Stock Number is covered by this document:

6640-01-031-3139

Ordering data (Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.)
