COMMERCIAL ITEM DESCRIPTION

SPLINT, ARM
Pneumatic, Adult, Radiolucent

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a plastic, transparent mouth inflatable, half arm splint for the emergency treatment of fractures and/or superficial bleeding.

Salient characteristics:

The splint shall be a pneumatic, half arm type with hook and pile or slide fastener closure. It shall be suitable for the emergency treatment of fractures and/or superficial bleeding of the arm below the elbow and including the hand. Splint materials shall not generally sensitize or irritate the skin under customary conditions of intended product use.

Shall be adult size, approximately 25 inches (63.5 cm) long.

The splint shall be x-ray transparent, constructed from clear, transparent, pliant, polished plastic film.

The splint shall be inflatable by simple lung pressure through a suitable valve and mouthpiece that can be easily opened and closed for inflation or deflation, or for pressure adjustments required during ascent or descent when used in aircraft.

Instructions for use shall be legibly and permanently marked on the immediate container. In addition the following caution shall be conspicuously located below the instructions for use, printed in 3/16 inch minimum capital letters:

"CAUTION: USE IN AIRCRAFT REQUIRES MONITORING THE SPLINT PRESSURE TO PREVENT NEUROVASCULAR INJURY. LIMIT INFLATION PRESSURE TO ADEQUATE FRACTURE SUPPORT ONLY."

The following information shall be printed below the caution in 1/8 inch minimum letters:

"The aneroid pressure gauge of a sphygmomanometer should be available for monitoring the splint pressure during ascent and descent. Splints air transported should be inflated to provide adequate support of the fractured limb (below 50 mm Hg). Over inflation is to be specifically avoided."

Note: As an alternate, the required instructions for use and cautions shall be legibly printed on a separate sheet of paper which shall be inserted in the immediate container in such a manner as to permit ready identification.

Workmanship. The splint shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One splint, as specified, constitutes one unit.

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

The following National Stock Number is covered by this document:

6515-01-196-1702

Ordering data: (Intermediate/exterior package quantities, and labeling and marking must be specified in the contract and/or order).
