COMMERCIAL ITEM DESCRIPTION

ADHESIVE PAD, COLOSTOMY-ILEOSTOMY-TRACHEOSTOMY

The General Services Administration has authorized the use of this commercial item description.

This Commercial Item Description covers a skin barrier for ostomy patients.

Salient characteristics:

Shall be a 4 by 4 inch adhesive pad suitable for use as a skin barrier for ostomy patients. The ostomy pad shall protect the skin against the irritating and excoriating properties of intestinal effluent, urine and exudate. The pads outer surface shall be a continuous layer of polyethylene film onto which a collecting pouch shall be capable of being anchored. The pad shall resist erosion by effluent, urine, and exudates, shall be fabricated of the hydrocolloids gelatin, pectin, and carboxymethylcellulose, and shall be easily cut to conform to body anatomy. The pad shall be flexible and shall remain in place while bathing and showering.

The adhesive shall be nonirritating and nonsensitizing to skin and shall adhere well to both moist and dry skin. An easily removable facing shall cover the adhesive.

The pad shall be suitable for use for applying to the skin around the stoma or around a fistula.

Expiration dating period. Not less than 54 months of the expiration dating period shall remain at the time of delivery to the Government.

Testing and examination shall be conducted to determine compliance with all specification requirements. Test methods shall be suitable, accurate and reproducible.

Workmanship. The ostomy adhesive pad shall be free from defects which detract from its appearance, or impair its serviceability.

Unit. Package (PG). One package containing 5 pads, each individually packaged in a peel-open package, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

6510-01-153-4567

Ordering data (Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order).
