S-S-710H
INT. AMENDMENT-1 (Army-GL)
June 14, 1977

FEDERAL SPECIFICATION

STEAM TABLES

(COMMERCIAL, HEAVY DUTY, STEAM, GAS OR ELECTRICALLY HEATED)

This Interim Amendment was developed by the U.S. Army Natick Research and Development Command (GL), Natick, MA 01760, for use by the Defense General Supply Center based on currently available technical information. It is recommended that Federal Agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized Federal Agencies to use the Interim Amendment as a valid exception to Federal Specification S-S-710H, dated January 23, 1976.

Page 2

Para. 2.1, under "Federal Specifications" - Delete the title to:

"UU-P-268" and substitute "Paper, Kraft, Wrapping".

"PPP-P-291" and substitute "Paperboard, Wrapping and Cushioning"

Page 3

2.1, under "Military Specification". Insert the following in proper sequence:

"MIL-P-43940 - Pans, Food Serving, Rectangular and Insets Round"

2.1, under "Military Standards". Delete reference to "MIL-STD-130" in its entirety.

2.2, sixth line. Delete in its entirety and substitute: "A.G.A. Directory of Certified Appliances and Accessories."

2.2, under "American National Standards Institute (ANSI) Inc. Standard": In "A.G.A's parenthetical phrase": Delete "1032 East 62nd Street" and substitute "8501 East Pleasant Valley Road".

Page 4

Para. 2.2 (continued), line 8 - Delete "Tariff Order Section" and substitute "Traffic Department".

3.1 Delete in its entirety.

Page 5

3.3.1, lines 1 and 2: Delete "Prior to approval of the first article, if one is submitted, or prior" and substitute "Prior".

Line 5, after "Nos. 2": Delete "and", and substitute "or".

3.3.1.2, line 3: Delete "or" and substitute "and".

Line 9, after "Nos. 2": Delete "and", and substitute "or".

Page 7

3.6 Add the following as new second sentence: "The body of the steam table shall be of a frame, shell, or combination of frame and shell construction."

3.6, line 4 after "deflection". Insert "and the deflection shall be not more than 1/8 inch".

3.6.1, line 1. Delete "The" and substitute "when frame construction is provided the".

Line 4, after "frame". Add "period (.)" and delete remainder of sentence.

3.6.5, line 4, after "zero": Insert "All dimensions for table top openings shall be taken at the top surface of the table top."

Line 7. Delete "holes" and substitute "hole(s)".

3.6.6, line 3, after "table": Insert "top opening with a plus tolerance of two inches and a minus tolerance of zero."

Page 8

3.6.7, line 2. Delete "4 arm".

Line 5, after "Piping": Insert "when provided".

3.6.8, line 1, after "6 inches": Insert "plus or minus 1/8 inch".

3.6.9.2, line 4. Delete "of".

Line 7: Delete "support" and substitute "support(s)".

Delete fourth sentence and substitute "The center support(s) shall be installed in the center area, of the length, along the attendant's side of the steam table."

3.6.10 Delete in its entirety and substitute:

"3.6.10 Food pans. Steam tables sizes as specified in 1.2 shall be provided with pans and adapter bars listed in table II. The food pans shall conform to the requirements of MIL-P-43940. The steam table top openings shall be completely covered when any combination of full size, one-half size, or one-third size pans and adapter bars are inserted in normal use position for either the size 1, size 2 or size 3 steam tables. The quantity and size of pans to be furnished for each size steam table shall be in accordance with table II. When specified (see 6.2), one full size extra deep food pan shall be furnished for each size steam table specified."

Page 9

Table II: Delete and substitute:

TABLE II. Food Pans and tureen sizes and capacities

Pan and tureen size	Pan type and sizes 1/	Quantity per steam table			Capacity (quarts) (± 10 percent)
		Size 1	Size 2	Size 3	
Full size shallow	No. 2	5	6	7	7-1/2
Full size deep	No. 3	2	3	3	15
Full size extra deep	No. 4	-	-	-	19-3/4
One-half size	No. 5	4	6	8	4-1/8
One-third size	No. 11	3	3	3	2-3/4
Tureen	-	1	2	2	32

1/ Pan sizes to be in accordance with MIL-P-43940.

Page 11

3.6.12.2, lines 6 and 7: Delete "175 and 225" and substitute "185 and 220", respectively.

3.6.12.2, end of paragraph. Add the following: "The thermostat dial shall have a minimum of three settings, one at the 185F location, one at the 220F location, and one located midway between the 185F and 220F settings."

Page 12

3.6.14.1, 3.6.14.1.1, and 3.6.14.1.2. Delete in their entirety, and add the following in proper sequence:

"3.6.14.1 Fuel system. Each gas-heated steam table shall be designed to provide a large flame-impingement area, or flame deflector plates for large concentrated gas flames, to prevent hot spots on the water pan.

"3.6.14.1.1 Natural Gas. The unit shall be furnished to operate on natural gas. The fuel system including burners shall be designed to efficiently burn natural or liquified petroleum gas (LPG) with appropriate conversion. Burner gas valves and pilot gas valves shall be of the fixed orifice type with orifice hoods that can be interchanged. The orifice hood installed for natural gas shall be unpainted brass. An automatic pilot including a 100 percent shutoff shall be provided on each unit.

"3.6.14.1.2 LPG. The supplier shall furnish a black color-coded orifice hood to convert the unit to operate on LPG. The supplier shall also furnish complete instructions for conversions to operate on LPG.

"3.6.14.1.3 Accessories. A pressure regulator, as specified in Z21.31, for natural gas, shall be furnished with each unit.

"3.6.14.1.4 Gum protective devices. The constant burning gas pilots designed to use natural gas shall be provided with gum protective devices.

"3.6.14.1.5 Automatic ignition. Automatic ignition shall insure safe ignition and re-ignition of gas. All gas burners shall be equipped with a manually-lighted standing pilot system. The pilot shall be furnished with a safety shutoff device. In the event that the source of ignition fails, the device shall automatically interrupt the flow of gas to the main burner under its supervision and the flow of gas to the pilot."

Page 13

3.6.15, line 2: Delete "in accordance with MIL-STD-130".

Page 14

3.9, line 4, after "and": Insert "sharp".

Page 15

4.2 and 4.3: Delete in their entirety.

4.4.1, line 2: Delete "and tested".

Page 16

Table V, (cont'd), 16th major defect: Delete "(more than 1/16 inch)".

Table V, (cont'd) "11th minor defect": Delete in its entirety.

Page 17

Table V, (cont'd), "7th minor defect, after "made": Delete remainder of sentence and substitute "of one piece construction".

Page 18

4.4.2.3, fourth and fifth sentences: Delete in their entirety and substitute "One item selected at random from the first produced lot shall be tested in accordance with 4.6.1 through 4.6.7, as applicable. Failure of the random sample to pass any tests shall be cause for rejection of the lot."

Page 19

Para. 4.4.3, TABLE VI, after "Material" - Add the following:

"Workmanship	Articles requiring wrapping, improperly wrapped.
	Openings not sealed.
	Wrapping not secured with tape, as specified.
	Package cushioning not applied, as required.
	Bulged or distorted containers."

Page 20

4.6.5, third and fourth sentences: Delete in their entirety and substitute: "With the heat applied, the thermostat dial shall be set at 194°F until equilibrium conditions have been established. The thermostat dial shall then be turned to boil (212°F) and the thermometer shall be read when the water boils vigorously. The time required to raise the temperature of the water in the tank from 194°F to 212°F (vigorous boil) shall not exceed 20 minutes."

4.6.6: Insert the following as new first sentence: "Prior to beginning of the structural strength test place a one peice straight edge in the center of the length of the steam table. Readings shall be taken and recorded at the steam table extreme ends and at each of the raised lip locations."

4.6.6, line 5, after "3.6": Delete "period (.)" and add the following: "and the deflection measurements shall be taken at the same locations as prior to the test for determination of conformance to the deflection requirements specified in 3.6."

Page 21

Para. 5.1.1.3.1, line 2, after "to" - Insert "type I,". Line 8, before "V3c" - Insert "grade".

Page 22

Para. 5.2.1.1, line 3, after "type" - Insert ", style A or J".

Para. 5.2.1.2, line 3, after "type" - Insert ", style A or J".

Para. 5.2.1.3, line 3, before V2s - Insert "grade". Last sentence - Delete and substitute: "Each shipping container shall be closed in accordance with method III, waterproofed in accordance with method V and reinforced as specified in the appendix of PPP-B-636."

Page 23

Para. 5.2.2.3.1 - Insert the following title: "Weather-resistant fiberboard containers.-".

Line 1, before "V3c" - Insert "grade".

Line 2 - Delete and substitute: "V3s or V4s fiberboard box fabricated in accordance with PPP-B-636 and closed in accordance with method III as specified in the appendix of PPP-B-636".
