PART NUMBER	CAPACITY (ml)
MS36061-1	500
MS36061-2	1000
MS36061-3	2000

MATERIAL: Borosilicate glass in accordance with Federal Specification DD-G-541, Type I, Class A.

DESIGN: Flask shall have a spherical body and three short vertical necks of equal height with size 24/40 standard ground joints in accordance with Federal Specification DD-G-675, Type I, Composition 1, Grade A.

Each flask shall have a marking area located in accordance with commercial practice.

Each flask shall be permanently and legibly marked with manufacturer's name or trademark and capacity.

NOTES:
1. Procurement document for MS36061-1 is Federal Specification NNN-F-240, Type III, Class 2.
2. Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements as specified herein.
3. For design feature purposes this standard takes precedence over procurement document referenced herein.
4. Referenced documents shall be of the issue in effect on date of invitation for bid.

APPROVED 29 Jun 1960 REVISED (A) 15 Aug 1969

(A) ENTIRE STANDARD REVISED

This military standard is approved by the Department of Defense and is mandatory on all activities. Selection for all new engineering and design applications and for repetitive use shall be made from this document.
