MILITARY SPECIFICATION

Stone, Commutator Burnishing
(Flexible Abrasive)

This amendment forms a part of Military Specification MIL-S-17346B dated 29 April 1966.

PAGE 2

Add new paragraph to read as follows:

3.7 Reclaimed Materials. The stone shall contain reclaimed materials to the maximum extent possible without jeopardizing the material quality or performance of the equipment. The reclaimed material shall be reprocessed, remanufactured, or recycled in a manner which restores them to the same chemical composition and physical properties as the material originally selected for use on the bit assemblies. Reclaimed materials shall be inclusive of all alloying elements applicable that have been collected from discarded solid, liquid, or gaseous waste, refuse, sludge, and from other collections of materials.
