MILITARY SPECIFICATION

CHARGE PROPELLING, M82

This amendment forms a part of Military Specification MIL-C-46689A (MU), dated 30 June 1964, and is approved for use by the U.S. Army Armament Research and Development Command, and is available for use by all Departments ang Agencies of the Department of Defense.

PAGE 1

* Add the following preamble underneath the title:

"This specification is approved by the U.S. Army Armament Research and Development Command, and is available for use by all Departments and Agencies of the Department of Defense."

Title: Add "(M82)" following the item nomenclature "M82E1". Make this change wherever else the nomenclature appears in the specification.

1.1, line 2: Add "(M371A1)" after "M371E1."

2.1, Specifications:

Military: Delete reference to "MIL-I-45208."

Standards: Add "MIL-STD-1168 - Lot Numbering of Ammunition."

PAGE 2

* Drawings: Delete "7549036 - Marking Diagram and Sealing of Container, Metal, Universal M25 for Shipment of Propellant and Explosives." and substitute "8858577 - Marking Diagram and Sealing of Container, Metal, Universal M25 for Shipment of Propellants."

Delete paragraphs 4.1, 4.1.1, 4.1.2 and 4.1.3 in their entirety and substitute the following:

"4.1 General quality assurance provisions. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified, the supplier may utilize his own facilities or any commercial laboratory acceptable to the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements. Reference shall be made to Standard MIL-STD-109 in order to define the terms used herein. The provisions of Specification MIL-A-2550 shall apply.

4.1.1 Submission of product. At the time the completed lot of product is submitted to the Government for acceptance the contractor shall supply the following information accompanied by a certificate which attests that the information provided is correct and applicable to the product being submitted:

a. A statement that the lot complies with all quality assurance provisions specified within this specification.

b. Number of units of product inspected.

c. Results obtained, by defect code, for all inspections performed.

d. Drawing, specification number and date, together with an identification and date of changes.

e. Certificates of conformance on all material purchased by the contractor when such material is controlled by Government or commercial specifications referenced in any of the contractual documents.

f. Number of items in the lot.

g. Date submitted.

The certificate shall be signed by a responsible agent of the certifying organization. The initial certificate submitted shall be substantiated by evidence of the agent's authority to bind his principal. Substantiation of the agent's authority will not be required with subsequent certificates unless, during the course of the contract, this authority is vested in another agent of the certifying organization.

4.1.2 Government verification. Using the contractor's written quality assurance procedure, this detail specification, the applicable drawings and other contractual documents as a guide, the Government inspector shall verify at unscheduled intervals the quality assurance operations performed by the contractor. Verification will be performed to the extent necessary to assure compliance with the contractual requirements. Severity of Government inspection of individual characteristics will be directly related to the seriousness of the classification assigned. In no instance will a characteristic classified "critical" be accepted solely on the basis of the contractor's records."

PAGE 4

4.2.1: Delete in its entirety and substitute the following:

"4.2.1 Lot formation. A lot shall consist of propelling charges produced by one manufacturer in one unchanged process, in accordance with the same drawing, same drawing revision, same specification and same specification revision. Drawing, specification and process changes not affecting safety, performance or interchangeability, as determined by the Government, shall not necessitate changing the lot interfix number. The examinations and tests listed herein shall be performed on inspection lots submitted in accordance with Standard MIL-STD-105 or MIL-STD-1235 as applicable. The criteria and procedures for the assignment of inspection lot numbers shall be in accordance with Standard MIL-STD-1168. Each lot shall contain:

a. Propellant from not more than one lot.

b. Propellant bag assemblies of not more than one type of material."

PAGE 6

* 4.2.2.4: Delete "7549036" and substitute "8858577."

PAGE 8

* 5.2, line 2: Delete "7549036" and substitute "8858577."

5.3: Delete in its entirety.

6.1: Add "b" as follows:

"b. Data Cards. Data cards shall be prepared for each lot in accordance with the information specified in Standard MIL-STD-1167."

"The margins of this amendment are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment."
