INCH-POUND

MIL-C-46695B (AR)
AMENDMENT 4
12 March 1993
SUPERSEDING
AMENDMENT 3
29 February 1988

MILITARY SPECIFICATION

CHARGE, PROPELLING, 8 INCH, M2
(WHITE BAG) LOADING, ASSEMBLING AND PACKING

This Amendment forms a part of Military Specification MIL-C-46695B (AR), dated 2 June 1981 and is approved for use within the US Army Armament, Munitions and Chemical Command and is available for use by all Departments and Agencies of the Department of Defense.

PAGE 2

2.1: Delete "9331256-Packing and Marking For Container, Ammo, Metal PA93: for Charge, Propelling, 8 Inch, M2" and substitute "7548187-Packing and Marking of Metal Containers for Propelling Charges and Details" (This reinstates the use of the round end container, dwg 7548187, which was replaced by the square end container, dwg 9331256, by Amend 1 dated 20 July 1981).

PAGE 4

* Add the following new paragraph:

"3.10 Initial production test. This specification contains provisions for the submission of an initial production sample. This is a one time qualification test for a new contractor to load, assemble and pack M2 propelling charges. Test samples shall be withdrawn form the first lot produced by the contractor. Charges will be tested in accordance with all the requirements of this specification and with Table III (see 6.10). Until the initial production sample has been found to be acceptable, the contractor is in no way authorized by the Government to initiate production of a second lot unless otherwise directed by the contracting officer."

* 4.2: Add the following:

"c. Initial Production Inspection (see 6.10)."

4.3.1 Drawing: Delete "9331256" and substitute "7548187" (This reinstates the use of the round end container, dwg 7548187, which was replaced by the square end container dwg 9331256, by Amend 1 dated 20 July 1981.)

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

TABLE II: Delete "Dwg 8861374/9331256" and substitute "Dwg 8861374/7548187" (This reinstates the use of the round end container, dwg 7548187, which was replaced by the square end container, dwg 9331256, by Amend 1 dated 20 July 1981).

PAGE 7

* 4.4.1a: Add the following:

"An entire lot of propellant shall be utilized in the formation of one lot of propelling charges unless otherwise directed by the contracting officer."

PAGE 20

4.4.2.11, Container, Prior to Sealing:

Delete "9331256" and substitute "7548187".

Major category: Add new major defect 102 as follows:

"102 Charge cannot be removed by hand. 1/ 3.2 4.5.7"

Minor category: Delete minor defect 201 in its entirety.

Add the following note:

"1/ One sample from every 8 hours production."

PAGE 21

4.4.2.12, Container, sealed: Delete "9331256" and substitute "7548187."

PAGE 23

4.5.6:

Delete "Primer, MK2A4" and substitute "Primer, M82".

Delete "temperature (± 2 degrees F)" and substitute "temperature (± 2.5 degrees F)."

PAGE 24

Add the following paragraph:

"4.5.7 Charge removal from container. Each sample shall be tested for removal of the propelling charge from the container

by hand. The charge may be pulled out by the straps or the container may be inverted and the charge either pulled out or slid out. Any charge that cannot be removed from the container using the above method shall be cause for rejection of the production represented by the sample."

5.1: Delete paragraph 5.1 in its entirety and substitute the following:

"5.1 Preservation and packaging. N/A

5.2 Packing

5.2.1 Level A. The propelling charges shall be packed, sealed and tested in accordance with the specified requirements of drawing 7548187.

5.2.2 Level B. Pack the same as Level A.

5.2.3 Level C. Pack the same as Level A.

5.3 Marking. Marking shall be in accordance with the specified requirements of drawing 7548187."

PAGE 25

* Add the following new paragraph:

"6.10 Initial production test. The initial production test is one time qualification test for a new contractor to load, assemble and pack acceptable M2 propelling charges. Once a contractor has demonstrated the ability to load, assemble and pack the propelling charges, the initial production test may be waived by the contracting officer. The following test program shall be used for the initial production test:

TABLE III
Initial Production Test

Test Phase	Temp (Deg F)	No. Control Rounds	No Test Rounds	TECOM TOP
Propellant checkout	70		10	TOP-4-2-504
	145		10	TOP-4-2-504
	-60		10	TOP-4-2-504
Sequential Environmental	145	15	60	TOP-4-2-504
	-60	15	60	TOP-4-2-504"
