COMMERCIAL ITEM DESCRIPTION SPECIFICATION SHEET

VAPOR CORROSION INHIBITORS, TYPE V

The General Services Administration has authorized the use of this commercial item description, for all federal agencies.

The complete requirements for procuring Type V vapor corrosion inhibitors (VCIs) described herein shall consist of this document and the latest issue in effect of A-A-59441.

1. SCOPE. This commercial item description covers the requirements for Type V VCIs to provide corrosion protection for metals used in mechanical, electrical and electronic components and equipment that are subjected to corrosive environments. Type V VCIs are provided in bulk powder form.

2. SALIENT CHARACTERISTICS.

2.1 Physical characteristics. See Table I.

TABLE I. Physical characteristics.

Material Form	Color	Solubility (H20 @ 20 °C)	Protection Life (mo)	Weight/Volume Protected gm/m^3 (oz/ft^3)	Metals Protected
1	White Powder	<1%	36	300 (0.3)	MM
2	White Powder	15%	12	90 (0.1)	F & Aluminum
3	Powder, VCI insert (applied by dusting)		24	250 - 500 (0.25 - 0.50)	F & Aluminum

Key: MM = Multi-metal; F = Ferrous; NF = Non-ferrous

2.2 Application. Material Form 1 shall be used in enclosed spaces, including tanks, voids, and pipes. Material Form 2 shall be water soluble for use in piping undergoing hydrostatic testing and for dry lay-up. Material Form 3 shall protect products, components, or assemblies packaged in corrugated boxes, plastic wrap, or bags, and metal or wood containers.

2.3 Materials. The residual VCI materials shall pose no hazard to personnel entering treated spaces following treatment with VCIs.

2.4 Performance. VCI powders shall not interfere with or modify the electrical, optical or mechanical surface properties of the materials within enclosures. They shall be removable with a low pressure air spray or water rinse.

Check the source to verify that this is the current version before use.

3. National stock numbers (NSNs). Table II provides NSNs that correspond to this CID. The list may not be indicative of all possible NSNs associated with the CID.

TABLE II. National stock numbers.

Material Form	Standard Package	NSN
1	2.3 kg (5 lb), 23 kg (50 lb) & 45 kg (100 lb) drums	TBD
2	2.3 kg (5 lb), 23 kg (50 lb) & 45 kg (100 lb) bags	TBD
3	45 kg (100 lb) drums	6850-00-368-5233

MILITARY INTERESTS
