FEDERAL SPECIFICATION

TOOL BOX, PORTABLE (SHIPFITTER'S TYPE)

This specification is approved by the Commissioner, Federal Supply Service, General Services Administration, for the use of all Federal agencies.

1. SCOPE

1.1 Scope. This specification forms a part of the latest issue of GGG-T-558/GEN and covers the detail requirements for type III, class 2 narrow tray, shipfitter's tool box.

1.1.1 Federal specification coverage. Federal specifications do not cover all varieties of the commodity indicated by the title of the specification, or which are commercially available, but are intended to cover only those generally used by the Federal Government.

2. APPLICABLE DOCUMENTS

2.1 Government documents. The following documents, of the issues in effect on date of invitation for bids or request for proposal, form a part of this specification to the extent specified herein:

Federal Specifications:

GGG-T-558/GEN - Tool Box, Portable; General Specification for

Federal Standards:

FED-STD-376 - Preferred Metric Units for General Use by the Federal Government

(Activities outside the Federal Government may obtain copies of Federal specifications, standards, and Commercial Item Descriptions as outlined under General Information in the Index of Federal Specifications, Standards and Commercial Item Descriptions. The Index, which includes cumulative bimonthly supplements as issued, is for sale on a subscription basis by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.)

(Single copies of this specification, and other Federal specifications and Commercial Item Descriptions required by activities outside the Federal Government for bidding purposes are available without charge from General Services Administration Business Service Centers in Boston, MA; New York, NY; Philadelphia, PA; Washington, DC; Atlanta, GA; Chicago, IL; Kansas City, MO; Fort Worth, TX; Houston, TX; Denver, CO; San Francisco, CA; Los Angeles, CA; and Seattle, WA.)

(Federal Government activities may obtain copies of Federal standardization documents and the Index of Federal Specifications, Standards and Commercial Item Descriptions from established distribution points in their agencies.)

3. REQUIREMENTS

3.1 General requirements. The general requirements for all tool boxes shall be in accordance with GGG-T-558/GEN.

3.2 Design and construction. The tool box shall be made of steel and have a top opening lid, a lift out tray, skid rails on the bottom outside surface, and appropriate hardware. Overall dimensions, excluding projections, shall be 18-1/2 inches long, 7-1/2 inches wide, and 8 inches high.

3.2.1 Box body and lid. The box body shall be fabricated from not less than 22 gage sheet steel and reinforced on the outside bottom surface by welding two strips of not less than 14 gage steel, 7/8 inch wide, along the entire length of the box and at least 3/8 inch up each end to be used as skid rails. Suitable brackets, fabricated from 16 gage sheet steel shall be provided at each inside end of the body to support the tray. The brackets shall be positioned so that the top of the tray extends above the box body approximately 3/8 inch. One end of each bracket shall be bent upward to hold the tray in place against the back of the body. The height of the box body shall be not less than 6 inches, and the front and ends shall be offset to allow the lid to close flush with the front and ends of the body. Lids shall be not less than 1 inch high and made of at least 22 gage steel, and have a handle reinforcement plate properly placed on the inside of the lid for strength and support of the handle. The front edges of the body and lid shall be flat folded.

Distribution Statement A: Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

3.2.2 Tray. The tray shall be fabricated from not less than 22 gage sheet steel, be approximately 2 inches deep, and 3 to 4 inches wide, and have a length providing not more than 3/8 inch clearance at each end between the tray and the box body. A flange at each end shall be provided to lift the tray from the box.

3.2.3 Handle. A suitable chest-type handle shall be attached to the top center of the tool box.

3.2.4 Hardware. Minimum hardware shall consist of a hasp and staple or similar hardware designed for the use of a padlock attached to the front center of the tool box where the lid and body meet.

3.3 Metric product. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, provided they fall within specified tolerances using conversion tables contained in the latest revision of FED-STD-376, and all other requirements of this Federal Specification are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable. The contracting officer has the option of accepting or rejecting the product.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Quality assurance provisions shall be in accordance with GGG-T-558/GEN, modified as follows.

4.1.1 Load test. Each sample shall be load tested when loaded with 100 pounds of tools, lead shot, or other bulk material.

4.1.2 Drop test. Each sample shall be drop tested in accordance with GGG-T-558/GEN, when loaded with tools, lead shot, or other bulk material as follows: 5 pounds in tray and 30 pounds in bottom.

4.1.3 Hinge pin test. The hinge pin test shall be in accordance with GGG-T-558/GEN.

4.1.4 Weld test. Tool boxes with welded seams shall be tested in accordance with GGG-T-558/GEN.

5. PREPARATION FOR DELIVERY

5.1 Preservation, packaging, packing, and marking. Preservation, packaging, packing, and marking shall be in accordance with GGG-T-558/GEN.

6. NOTES

(This section contains information of a general or explanatory nature that may be helpful but is not mandatory.)

6.1 Acquisition requirements. Acquisition documents must specify the following:

a. Title, number, and date of this specification.

MILITARY INTERESTS:

Military Coordinating Activity

Army - GL

Custodians

Army - GL
Air Force - 99

Review Activity

Army - MD

User Activities

Navy - MC, YD

CIVIL AGENCY COORDINATING ACTIVITY:

GSA - FSS

PREPARING ACTIVITY:

GSA - FSS
