MIL-S-6872B
INTERIM AMENDMENT 1(AT)
9 December 1968

MILITARY SPECIFICATION

INTERIM AMENDMENT
SOLDERING PROCESS, GENERAL SPECIFICATION FOR

This Interim Amendment is issued by the U. S. Army Tank-Automotive Command with Military Specification MIL-S-6872B dated 14 June 1968.

Page 24, after paragraph 6.4, add:

"6.5 For electrical and electronic soldering This specification no longer covers electrical and electronic soldering requirements, and applies to mechanical soldering only. When MIL-S-6872 is specified in documents covering U. S. Army Tank-Automotive items for soldering of electrical and electronic connections, the following should be used: Soldering, Requirement 5 of MIL-STD-454, Standard General Requirements for Electronic Equipment."
