MILITARY SPECIFICATION

# CETYLPYRIDINIUM CHLORIDE LOZENGES, NF

This specification is approved for use by all Departments and Agencies of the Department of Defense.

## 1. SCOPE

1.1 Scope. This specification covers Cetylpyridinium Chloride Lozenges, NF (see 6.2).

## 2. APPLICABLE DOCUMENTS

2.1 Issues of documents. The following documents, of the issue in effect on date of invitation for bids or request for proposals, form a part of this specification to the extent specified herein:

SPECIFICATIONS

FEDERAL

| | |
|---|---|
| PPP-C-186 | Containers, Packaging and Packing for Drugs, Chemicals, and Pharmaceuticals |

STANDARDS

MILITARY

| | |
|---|---|
| MIL-STD-105 | Sampling Procedures and Tables for Inspection by Attributes. |
| MIL-STD-129 | Marking for Shipment and Storage. |

(Copies of specifications and standards required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: HQ Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-ATT, 2800 South 20th Street, Philadelphia, PA 19101, by using the self-addressed Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document or by letter.

2.2 Other publications. The following documents form a part of this specification to the extent specified herein. Unless otherwise indicated, the issue in effect on date of invitation for bids or request for proposals shall apply.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE,
FOOD AND DRUG ADMINISTRATION (FDA)

Federal Food, Drug, and Cosmetic Act and
Regulations Promulgated Thereunder.

(Application for copies should be addressed to the Food and Drug Administration, Washington, DC 20204.)

U. S. PHARMACOPEIAL CONVENTION, INC.

The United States Pharmacopeia(USP).

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

The National Formulary (NF).

(Application for copies should be addressed to the Mack Publishing Company, Easton, PA 18042.)

3. REQUIREMENTS

3.1 Material. Shall be Cetylpyridinium Chloride Lozenges, NF. Each lozenge shall contain 1.5 mg of cetylpyridinium within the applicable assay limits for the lozenges, 6.6 mg of benzyl alcohol within the designated assay limits for the lozenges, and aromatics in a suitable lozenge base.

3.1.1 Assay for benzyl alcohol. Shall contain not less than 75.0 percent and not more than 125.0 percent of the required amount of benzyl alcohol when assayed by an appropriate, accurate, and reproducible method.

3.1.1.1 The bidder or offeror shall submit with its bid or proposal the proposed method of assay for benzyl alcohol. If the method is approved and accepted by the Government, such method shall be employed in the testing of the lozenges. The requirement for submission of the method may be waived, provided the offeror states, in his bid or proposal, that the product he proposes to furnish is the same product he has offered to the purchasing activity on a previous procurement and that the suppliers of the ingredients, specification of the ingredients, and method of manufacture of the finished product have not been changed.

Check the source to verify that this is the current version before use.

3.2 Flavor and palatability. The lozenges shall be palatable and pleasant to the taste with no unpleasant aftertaste. Not later than the time specified for opening of bids or receipt of proposals, the offeror shall submit to the contracting officer one (1) individually packaged sample containing 400 lozenges representative of the product which the offeror proposes to furnish. One (1) sample will be subjected to panel testing for a determination of palatability (see 4.7.2). The remaining samples will be used by cognizant Government inspection and quality assurance activities for determining compliance of supplies furnished hereunder with the palatability requirement. Approval of palatability of any sample submitted by the offeror will not constitute approval of the sample as to any other requirement of this specification. The requirement for submission of samples for use in determining compliance with the palatability requirement may be waived, provided the offeror states, in his bid or proposal, that the product he proposes to furnish is the same product he has offered to the purchasing activity on a previous procurement and the contracting officer determines that such product was previously procured and/or tested by the purchasing activity and found to comply with the palatability requirement.

3.3 Ingredients.

3.3.1 Coloring agent(s). If coloring agent(s) are used in the manufacture of the lozenges, they shall be either an official article of the U S P or N F , or a coal-tar color certified as harmless, and suitable for coloring drugs under the terms of the Federal Food, Drug, and Cosmetic Act, including any amendments or revisions thereto.

3.3.2 Cetylpyridinium chloride and benzyl alcohol. The cetylpyridinium chloride and benzyl alcohol used in the manufacture of the lozenges shall be in accordance with the tests, standards, and requirements of the N F including any supplements or revisions thereto.

3.4 Other ingredients. All other ingredients used in the manufacture of the lozenges shall be of U S P or N F quality, or, if not included in either of these compendia, the ingredients shall be of the highest pharmaceutical grade.

3.5 Expiration dating period. The expiration dating period shall be not less than 36 months.

3.5.1 Delivery. Not more than 3 months of the expiration dating period shall have elapsed at the time of delivery to the Government.

3.6 Workmanship. The material and its containers shall be free from defects which detract from their appearance or impair their serviceability.

## 4. QUALITY ASSURANCE PROVISIONS

4.1 Supplier responsibility for inspection. Unless otherwise specified in the contract or purchase order, the supplier is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the supplier may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

4.1.1 Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, during the performance of the contract and, (i) as to any expiration dated item, for the expiration dating period specified by the contractor for such item, or such longer period as may be required by regulation of any federal agency; or (ii) as to non-dated items, for not less than 3 years after delivery of the items to the Government.

4.1.2 No company supplying any ingredient(s) to the contractor will be considered an acceptable facility for the performance of any inspection requirements specified herein.

4.2 Lot. For purposes of this specification, a lot, batch, or control is that single, uniform, and homogeneous quantity of lozenges produced from one formulation, subjected to the same compounding and manufacturing operation, and filled into final containers.

4.3 Sampling. Sampling shall be conducted in accordance with MIL-STD-105.

TABLE I. Sampling

| For visual examination | Inspection level | AQL (percent defective) | Unit of product |
|---|---|---|---|
| Major | S-2 | 1.0 | Filled immediate container |
| Minor | II | 2.5 | Box |

4.4 Examination. The finished lozenges shall be examined to determine compliance with all requirements of this specification. Nonconformance will be permitted to the extent indicated in 4.3.

Source: https://assist.dla.mil -- Downloaded: 202610-21T10:30Z
Check the source to verify that this is the current version before use.

4.4.1 Classification of defects. Examination will be conducted in accordance with the following classification of defects:

TABLE II. Classification of defects.

| Categories | Defects1/ |
|---|---|
| Major | |
| 101 | Lozenges not free from foreign matter. |
| 102 | Lozenges not free of gross chips or breaks. |
| 103 | Strip not fully sealed. |
| Minor | |
| 201 | Exterior of immediate container is not free from contents or foreign matter. |
| 202 | Label not free from defacing marks or tears. |
| 203 | Commercial strip not free of leakage. |

1/ Inspection is not restricted to the classified possible defects listed above.

4.5 Packaging inspection. The inspection of the packing and marking for shipment and storage shall be in accordance with quality assurance provisions of the applicable container specification and the marking requirements of MIL-STD-129.

4.6 Labeling inspection. Sampling shall be in accordance with MIL-STD-105 and the unit of product shall be the unit of issue. The inspection lot shall be the number of units of issue of each batch, lot, control number, etc., offered for inspection at one time. The inspection level for labeling shall be S-2 and the acceptance number shall be zero.

Check the source to verify that this is the current version before use.

4.7 Tests.

4.7.1 Tests. Tests shall be performed to determine compliance with all requirements of this document and all referenced documents.

4.7.2 Palatability test. A taste panel consisting of 10 members will be used to determine acceptability of samples. Samples will be prepared for testing, coded, and served to panel members under controlled serving conditions, e.g., all samples will be of the same amount, and served at the same temperature; each panel member will receive an equal number of samples; the order of serving will be varied among panel members; an interval of at least five (5) minutes will elapse between successive samples and panel members will rinse their mouths with water (room temperature) after each sample; panel members will test without interference either from each other or from outsiders. The product offered shall be rated equal to or better than the Palatability Standard1/ when determined by the taste panel, using the following 9-point hedonic rating scale. The average rating of the sample shall be equal to or greater than the average rating of the standard, similarly prepared and tested.

| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
|---|---|---|---|---|---|---|---|---|
| Dislike extremely | Dislike very much | Dislike moderately | Dislike slightly | Neither like nor dislike | Like slightly | Like moderately | Like very much | Like extremely |

1/The cetylpyridinium chloride lozenges palatability standard is available, upon separate request to the contracting officer, from the Defense Personnel Support Center, Directorate of Medical Materiel.

5. PACKAGING

5.1 Packaging requirements. The requirements for packaging shall be in accordance with all applicable requirements of PPP-C-186, and as specified herein.

5.2 Packaging. Packaging shall be level A or C, as specified (see 6.1).

5.2.1 Unit of issue. One box containing four hundred (400) lozenges as specified, constitutes one unit of issue.

5.2.2 Level A.

5.2.2.1 Immediate container. The immediate container shall be 4 lozenges in a commercially available blister or strip packaging considered acceptable by the Food and Drug Administration (FDA) for the product contained therein and shall be of such compatibility that neither the contents nor the container are altered in any way by each other.

Source: https://assist.dla.mil -- Downloaded: 2026-10-21T10:30Z
Check the source to verify that this is the current version before use.

5.2.2.2 Unit packaging. Each unit shall be packaged as specified in 5.2.5 of PPP-B-186.

5.2.3 Level C. Units shall be packaged in standard commercial containers of the size and kind commonly used, which will afford the degree of protection required for shipment and use of the product for its intended purpose.

5.3 Packing. Packing shall be level A, B or C as specified (see 6.1).

5.3.1 Level A. Eighteen (18) units of issue shall be packed as specified in 5.4.4 of PPP-C-186.

5.3.2 Level B. Eighteen (18) units of issue shall be packed as specified in 5.4.3.2 of PPP-C-186.

5.3.3 Level C. The subject commodity shall be packed in substantial commercial containers of the type, size, and kind commonly used for the purpose, so constructed as to insure acceptance and safe delivery by common or other carriers, to point of delivery called for in the contract or purchase order.

5.4 Marking.

5.4.1 Labeling. Labeling shall be in accordance with the requirements of the Federal Food, Drug and Cosmetic Act, and regulations promulgated thereunder, and shall include the information required below:

5.4.1.1 Immediate container. Each immediate container label shall bear the following information:

(a) label information in accordance with commercial practice.

5.4.1.2 Unit package. Each unit package label shall bear the following:

(a) labeling information in accordance with commercial practice.
(b) the National Stock Number.
(c) the expiration date.

NOTES: (1) The National Stock Number need not be preceded by any prefix.
(2) Strip labeling may be used.
(3) Label adhesion test shall not apply.

Source: https://assist.dla.mil -- Downloaded: 202640-21T10:30Z
Check the source to verify that this is the current version before use.

5.4.2 Exterior container. Exterior container shall be marked as specified in 5.5.4 of PPP-C-186. Type I shelf life marking shall be shown as specified in MIL-STD-129. Marking shall include the legend:

"STORE AT CONTROLLED ROOM TEMPERATURE 15° - 30° C (59° - 86° F)"

6. NOTES

6.1 Ordering data. Procurement documents should specify the following:

(a) Title, number and date of this specification.
(b) the National Stock Number.
(c) Selection of applicable levels of packaging and packing (See 5.2 and 5.3).

6.2 This specification covers the following item:

| National Stock No. | Item Identification |
|---|---|
| 6505-00-687-8205 | CETYLPYRIDINIUM CHLORIDE LOZENGES, NF, 1.5 mg, 400s |

6.3 Changes from previous issue. Asterisks are not used in this revision to identify changes with respect to the previous issue due to the extensiveness of the changes.

# STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

OMB Approval
No. 22-R255

INSTRUCTIONS: The purpose of this form is to solicit beneficial comments which will help achieve procurement of suitable products at reasonable cost and minimum delay, or will otherwise enhance use of the document. DoD contractors, government activities, or manufacturers/ vendors who are prospective suppliers of the product are invited to submit comments to the government. Fold on lines on reverse side, staple in corner, and send to preparing activity. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements. Attach any pertinent data which may be of use in improving this document. If there are additional papers, attach to form and place both in an envelope addressed to preparing activity.
