DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.

1. TITLE	2. IDENTIFICATION NUMBER
Failure Report Serialized Control	DI-MISC-81483

3. DESCRIPTION / PURPOSE

3.1 The failure report serialized control provides current and predicted reliability levels of serialized electronic components which are broken down to lower level assemblies. The purpose of the failure report is to provide serialized tracking of all the parts repaired or replaced during the repair process.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
950731	F/WRALC-LKGE		

7. APPLICATION / INTERRELATIONSHIP

7.1 This data item description (DID) contains the format and content preparation instructions for data product generated by the specific and discrete task requirement as delineated in the contract.

7.2 This DID is applicable to the acquisition and repair of military systems and equipment. It provides traceability through various levels of repair.

7.3 This DID supersedes DI-ILSS-80053.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		F7156

10. PREPARATION INSTRUCTIONS

10.1 Format. Format shall be similar to the sample format shown in Figure 1.

10.2 Content. This report shall contain the following information:

10.2.1	Block 1.	Report number from field failure report.
10.2.2	Block 2.	Original failure date in DDMMYY format.
10.2.3	Block 3.	All up round (AUR) serial number from original field failure report.
10.2.4	Block 4.	Failed component part number.
10.2.5	Block 5.	Failed component serial number. If no serial number, use lot number.
10.2.6	Block 6.	Flight hours accumulated since date of last reported flight hours.
10.2.7	Block 7.	Elapsed time indicator (ETI) or energized (ENG) reading.
10.2.8	Block 8.	Test set type.

(Continued on page 2)

11. DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Block 10, Preparation Instructions (Continued)

10.2.9	Block 9.	Test set serial number.
10.2.10	Block 10.	Test set meter reading.
10.2.11	Block 11.	Disposition code.
10.2.12	Block 12.	Reason for submission code.
10.2.13	Block 13.	Test set failure codes.
10.2.14	Block 14.	New component part number.
10.2.15	Block 15.	New component serial number. If no serial number, use lot number.
10.2.16	Block 16.	Remarks (brief and accurate description of failure).
10.2.17	Block 17.	Name of individual completing this section.
10.2.18	Block 18.	Phone number of individual completing this section.
10.2.19	Block 19.	Initial visual inspection results and receiving date in DDMMYY format.
10.2.20	Block 20.	Visual or test failure found.
10.2.21	Block 21.	Failure verification date in DDMMYY format.
10.2.22	Block 22.	Test set type.
10.2.23	Block 23.	Test set serial number.
10.2.24	Block 24.	Test set meter reading.
10.2.25	Block 25.	Test set failure codes.
10.2.26	Block 26.	Newly installed pyrotechnic or shelf life component part number.
10.2.27	Block 27.	Newly installed pyrotechnic or shelf life component serial number.
10.2.28	Block 28.	Newly installed pyrotechnic or shelf life component lot number.
10.2.29	Block 29.	Newly installed pyrotechnic or shelf life component date of manufacture in DDMMYY format.
10.2.30	Block 30.	Malfunction code for removed pyrotechnic or shelf life component.
10.2.31	Block 31.	Modification number.
10.2.32	Block 32.	Newly installed component part number.
10.2.33	Block 33.	Newly installed component serial number.
10.2.34	Block 34.	Newly installed component lot number.
10.2.35	Block 35.	Newly installed component date of manufacture in MMYY format.
10.2.36	Block 36.	Newly installed component reference designator or logistic control number (LCN).
10.2.37	Block 37.	Primary failure.
10.2.38	Block 38.	Cause of primary failure.
10.2.39	Block 39.	Newly installed nonpyrotechnic component part number.
10.2.40	Block 40.	Removed nonpyrotechnic component serial number.
10.2.41	Block 41.	Newly installed nonpyrotechnic component serial number.
10.2.42	Block 42.	Newly installed nonpyrotechnic component reference designator or LCN.
10.2.43	Block 43.	Malfunction code of failed component.
10.2.44	Block 44.	Disposition code of failed component.
10.2.45	Block 45.	Failure type of failed component.
10.2.46	Block 46.	Information that may be helpful in determining component failure or reliability.

Block 10, Preparation Instructions (Continued)

10.2.47	Block 47.	Name or site or location of repairing activity.
10.2.48	Block 48.	Name of individual performing repairs and defense switching network (DSN) or commercial phone number.
10.2.49	Block 49.	Name of individual performing test inspection.
10.2.50	Block 50.	Name of individual performing quality inspection.
10.2.51	Block 51.	Date of completion in DDMMYY format.
10.2.52	Block 52.	Original cause of failure.
10.2.53	Block 53.	Failed part name.
10.2.54	Block 54.	Failed part number.
10.2.55	Block 55.	Vendor or manufacturer's name.
10.2.56	Block 56.	Next higher assembly part number.
10.2.57	Block 57.	Effect of failure on system performance.
10.2.58	Block 58.	Corrective action status and date of initiation in DDMMYY format.
10.2.59	Block 59.	Detailed analysis findings to include nature of failure, its contribution to stated failure, its probable cause, and suggested corrective action.
10.2.60	Block 60.	Name and DSN or commercial phone number of individual performing analysis.
10.2.61	Block 61.	Date of analysis in DDMMYY format.
10.2.62.	Block 62.	Site or location code of activity performing analysis.
10.2.63	Block 63.	Engineering remarks.
10.2.64	Block 64.	Failure type code.
10.2.65	Block 65.	Name and DSN or commercial phone number of individual performing evaluation.
10.2.66	Block 66.	Date of evaluation in DDMMYY format.
10.2.67	Block 67.	Site or location code of activity performing evaluation.
10.2.68	Block 68.	Name of individual closing failure report and date in DDMMYY format.
10.2.69	Block 69.	Site or location code of activity closing failure report.
