COMMERCIAL ITEM DESCRIPTION

SPECTACLES, POST CYCLOPLEGIC

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a type of disposable plastic spectacle suitable for temporary use after cycloplegic or other ocular medication resulting in photophobia.

Salient characteristics:

General. The spectacle lenses shall be made from a one-piece die-cut plastic sheet with fold-over side shield on both sides. The shields shall contain slits for insertion of earpieces (temples). The temples shall be hooked shape at one end and shall not be slided out from the slits when fully extended.

Material. The lens material shall be made of cellulose or polyester sheet not less than 0.025 inch thick, dark gray in color with 22 percent nominal light transmission at the 500 nanometer wavelength range. The temples shall be made of either paper chipboard or molded plastic. Sharp edge at the ear contact areas will not be accepted.

Dimensions. The frontal width of the spectacle shall be five (5) inches nominal. The side shield shall be extended not less than 1-1/2 inch from the folding line. When the temples are fully extended, it shall not be less than 4-3/4 inch from the folding shield line.

Finish. The lens shall be free from scratches or any irregularity to distort field of vision.

Marking. Special marking on the spectacle is not required. Standard manufacturer's logo or marking is acceptable.

Workmanship. The spectacle shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing one hundred disposable spectacles, as specified, constitutes one unit.

AMSC N/A FSC 6540

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Metric Product. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard No. 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch/pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting or rejecting the product.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug, and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use the covered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
