AMENDMENT

TO

INTERIM FEDERAL SPECIFICATION

FOUNTAIN PEN, TECHNICAL

This amendment was developed by the General Services Administration, Federal Supply Service, Washington, DC 20406, based upon currently available technical information. The General Services Administration has authorized this amendment as a part of Interim Federal Specification GG-F-001189(GSA-FSS), dated June 11, 1971.

PAGE 1

Lower right-hand corner, change FSC designation to "7520 and 7510".

PAGE 2

Delete paragraph 3.1, Bid Samples.

Paragraph 3.3.1.1: Delete second subparagraph and substitute:

"The pens shall be provided with a color code so that the user may identify the different sizes. As a minimum, the color coding shall appear on the cap, and on either the point section or the point housing section. The point section color code must be visible when the pen is filled with ink."

Paragraph 3.3.2.2: Delete and substitute:

"3.3.2.2 Pen set case. A pen set case shall be provided with each pen set to provide storage for the pens, components, and accessories. The interior of the case shall be designed with a molded or a built-in compartment or sleeve for each of the pens, components, and accessories in the set. The compartments or sleeves shall be designed to immobilize the pens, components and accessories and shall permit easy access to the items by the user. Pens, components or accessories shall not be taped or placed in the case in a make-shift arragement without compartments or sleeves. The exterior of the case shall be constructed of metal, high impact molded plastic, or chipboard covered with vinyl or coated cloth (artificial leather). The case interior may be fabricated from any material that provides protection for the pens, components, and accessories during storage and use. The complete case shall be constructed to withstand hard usage during the expected useful life of the pens. Provisions shall be incorporated in the interior of the case to allow each pen of the set to be placed in a point-down position during use."
