# COMMERCIAL ITEM DESCRIPTION

## BLOCK, INSECT FIXATION (Double Mount)

The General Services Administration has authorized the use of this commercial item description as replacement for Military Specification MIL-B-37067 (DSA-DM).

This commercial item description covers a cork block for mounting small insects.

Salient characteristics.

Shall be a double mount cork block with a white glazed covering at the top and bottom surfaces.

Shall be suitable for mounting small insects.

Shall be in the form of a cork block having nominal dimensions (inches) of 1/4 width X 3/8 length X 5/64 thick. The width and length shall represent the dimensions for the top and bottom surfaces. The cork material shall be ground cork in a gelatinous binder. The minimum weight for one hundred (100) cork blocks shall be 0.2 ounces. The cork material shall have physical properties that include:

A maximum moisture content of 6%.
A minimum density of 19 pounds per cubic foot.
A minimum tensile strength for a 5 millimeter thick specimen of 200 pounds per square inch.

Shall have the top and bottom surfaces of the block papered with an adhesive. The adhesive used shall secure the paper to the block without any tendency for the paper to peel off.

Workmanship. The cork block shall be free from defects which detract from their appearance or impair their serviceability.

Unit. Package (PG). One package containing one hundred blocks, as specified, constitutes one unit.

AMSC N/A FSC 6640

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Sampling for inspections and tests. Sampling for inspections and tests shall be conducted in accordance with commercial practice.

Inspections and tests. Inspections and tests shall be conducted in accordance with commercial practice to determine compliance with specification requirements.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable. The contracting officer has the option of accepting or rejecting the product.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/ contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

6640-00-404-2100

Ordering data. (Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order).
