COMMERCIAL ITEM DESCRIPTION

LENS, CONTACT, THREE-MIRROR, GOLDMANN

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a type of 3-mirror contact lens for use in ophthalmic examination of the retina by use with a slit lamp.

Salient characteristics:

General. It shall be commonly referred to as a 3-mirror universal lens (Goldmann type).

It shall be constructed with a hand-held plastic barrel and housed within a central high minus contact lens about 60 diopters power and three mirrors. The mirrors shall be placed 73, 67 and 59 degrees in respect to the same horizontal plane flat against the cornea. The mirrors shall be arranged at 120 degree intervals.

Curvature of the contact lens shall be concave on the cornea contacting side to minimize patient's discomfort.

The barrel diameter on the cornea contacting side shall be not less than 12 millimeters.

Each lens shall be packaged in a reusable protective canister.

Material. The contact lens shall be ophthalmic grade crown glass, machined to finished surfaces. The mirror shall be silver coated flat plate glass. The barrel should be made of bakelite or high impact plastic.

Identification marking. The trade-mark or manufacturer's name shall be permanently marked on the exterior of the barrel.

Workmanship. The lens shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One lens with case, as specified, constitutes one unit.

AMSC N/A FSC 6540

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch/pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting or rejecting the product.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug, and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use the covered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximun extent practical.

Preservation, packaging, packing, labeling and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

NSN	ITEM IDENTIFICATION
6540-01-078-4164	LENS, CONTACT, THREE-MIRROR, GOLDMANN
