INTERIM COMMERCIAL ITEM DESCRIPTION

NITROGLYCERIN TRANSDERMAL SYSTEM, MICROSEALED

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-RST, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information.

Salient Characteristics:

Shall be Nitroglycerin Transdermal System designed to deliver nitroglycerin at a controlled release rate into the blood stream via the skin by a microsealed (partition-controlled) drug delivery system.

Materials used in manufacture of the product shall be of pharmaceutical grade.

For Strength 1, the nitroglycerin transdermal system shall provide 5 mg of nitroglycerin per 24 hour period. Shall contain 16 mg of nitroglycerin within the applicable assay limits on a $8cm^2$ flexible, nonsensitizing adhesive bandage (patch).

For Strength 2, the nitroglycerin transdermal system shall provide 10 mg of nitroglycerin per 24 hour period. Shall contain 32 mg of nitroglycerin within the applicable assay limits on a $16cm^2$ flexible, nonsensitizing adhesive bandage (patch).

Shall comply with the Content Uniformity requirements in the USP for capsules.

Workmanship. The product shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing 30 patches, as specified, constitutes one unit.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurdisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Numbers are covered by this document:

NSN	ITEM IDENTIFICATION	STRENGTH
6505-01-147-0009	Nitroglycerin Transdermal System, 5 mg Nitroglycerin per 24 hours, 16 mg, 30s	1
6505-01-157-9064	Nitroglycerin Transdermal System, 10 mg Nitroglycerin per 24 hours, 32 mg, 30s	2
