# COMMERCIAL ITEM DESCRIPTION

## DICHLORODIFLUOROMETHANE, TECHNICAL

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers an aerosol freezing spray for use in histological and laboratory procedures.

Salient characteristics:

Shall be six 12 ounce cans of dichlorodifluoromethane i.e.(F-12, Freon tm), aerosol spray for instant freezing of tissue samples for histological studies.

Each six pack shall come with six 5 inch (12.7 cm) nozzles and a snap on plastic pistol grip handle for actuation of the nozzle.

Each can shall have a net weight of at least 12 ounces with instructions for proper use printed on the can. Each can shall have the manufacturers name or registered trademark and be neat and legible.

The pistol grip type handle shall afford a comfortable and efficient grip and have a designed lifetime of at least twelve cans of freezing aerosol spray. The actuation method of the pistol grip handle shall not bend, twist or deform in any way while in use and shall support the total weight of the spray can in any position.

Dichlorodifluoromethane shall have no more than 100 parts per million in contaminants to include petroleum by-products from the manufacturing process.

Workmanship. The freezing aerosol spray shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing six 12 ounce cans with six 5 inch spray nozzles and one snap-on pistol grip-type handle, as specified, constitutes one unit.

AMSC N/A FSC 6830

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics. Testing shall include the use of the clip on pistol grip spray type handle for proper functioning.

Sampling for tests. Sampling for tests shall be conducted in accordance with MIL-STD-105 and as specified herein. The unit of product for tests purposes shall be one package containing six cans. Unless otherwise specified, sampling for tests shall be conducted at inspection level S-2 with an AQL of 1.0.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
