PROCUREMENT SPECIFICATION	AIR FORCE-NAVY AERONAUTICAL STANDARD	AN6015
MIL-V-5027	VALVE - HIGH PRESSURE OXYGEN CHECK (STYLE B)	

NOTICE.—When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility, nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any patented invention that may in any way be related thereto.

NOTE.—This drawing was approved by joint action of the Air Force and Navy Department as the Air Force-Navy standard for this product. The drawing supersedes all Navy-CAA standard drawings for this product. This drawing is effective for the procurement of aeronautical supplies, or for use in new design, not later than six months after the latest date of approval shown.

U.S. GOVERNMENT PRINTING OFFICE - 1972 - 714-166/7038
