bursts of 50 rounds in the quantities and weapons as specified in the table below. The gun barrel(s) shall be at ambient temperature at the beginning of the test and shall be cooled to ambient temperature after each 100 rounds. This test shall be conducted at a facility designated by the procuring activity.

Accepted cases will be used in	M61 Weapon	M39 Weapon
20mm PGU Ammunition:	400	
All other 20mm Ammunition:	200	200*
Case First Article Test:	2000	2000**

*Customers, through the procuring activity, may modify this requirement and base acceptance of cartridge cases that will be used to fulfill their orders on the firing of 400 rounds in the M61 Gun.

** Customers, through the procuring activity, may modify the first article test and base acceptance of cartridge cases on the firing of 4000 rounds in the M61 Gun."

The margins of this amendment are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire contract irrespective of the marginal notations and relationship to the last previous amendment.
