DATA ITEM DESCRIPTION

Title: Cyber Survivability Commercial-off-the-Shelf (COTS) Trade Analysis (CS-CTA)

Number: DI-NUSU-82557

Approval Date: 20260914

AMSC Number: 10697

Limitation: None

DTIC Applicable: No

GIDEP Applicable: No

Preparing Activity: 27

Project Number: NUSU-2026-005

Applicable Forms: None

Use/Relationship: The CS-CTA provides a description of the likelihood and impact risk factors, identified through trade studies, in Cyber COTS products selected or being considered for selection. This data will inform the Cyber Survivability Risk Factors Reduction (CS-RFR) data delivery.

This data item description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

Requirements:

1**. Format.** The CS-CTA shall be in contractor's format.

2. **Content.** The CS-CTA shall include the following:

a) Identify all Cyber requirements that apply to the candidate COTS hardware or software.

b) Identify, by name, candidate hardware or software.

c) Evaluate/analyze candidates against requirements to inform trade studies.

d) Identify and analyze risk factors (impact, likelihood) associated with candidate hardware or software.

e) Identify risk disposition (derived requirements, design, acceptance) necessitated by the risk analysis.

f) Identify the procurement source of the selected COTS hardware or software.

g) Describe the rationale supporting the outcome of the trade.

Check the source to verify that this is the current version before use.

3. **POC.** Identify Office/Organization responsible for reporting Cyber Survivability Risk Factors Reduction.

4. **Additional Resources Required**

   a) Cyber Survivability Risk Factors Assessment – Event, Likelihood, Impact (CS-RFA)

   b) Cyber Survivability Commercial-off-the-Shelf Trade Analysis (CS-CTA)
