DATA ITEM DESCRIPTION

Title: SOFTWARE THREAT ASSESSMENT REPORT

Number: DI-IPSC-82251
AMSC Number: 10000
DTIC Applicable: No
Preparing Activity: MDA
Applicable Forms: None

Approval Date: 20190124
Limitation: N/A
GIDEP Applicable: No
Project Number: IPSC-2019-003

Use/Relationship: The Software Threat Assessment Report documents the results of the threat assessment activities.

This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific task requirement included in the contract.

Requirements:

1. **Format.**

    a. The report shall be in contractor format unless otherwise specified on the Contract Data Requirements List (CDRL) (DD 1423).

    b. Security classification and distribution markings shall conform to the requirements of the contract, purchase description, and security requirements checklist, as applicable.

2. **Content.**

    The Software Threat Assessment Report shall:

    a. Document or reference the process used to perform the software threat assessment.

    b. Document the results of the software threat assessment.

        i. Identify sources of information used to support the software threat assessment (e.g. vulnerability scanning and penetration tools and techniques).

        ii. Document all security-relevant information associated with identified software threats to include threat models where applicable.

        iii. Utilize a software threat categorization method that categorizes threats according to the goals and purposes of the attack (e.g. Microsoft STRIDE).
