MILITARY SPECIFICATION SHEET

FITTINGS, WIRE REINFORCED HYDRAULIC HOSE AND CLAMP-HALVES:

FLANGE TO PORT CONNECTIONS FOR 4-BOLT SPLIT-FLANGE TYPE FITTINGS

This specification is approved for use by all Departments and Agencies of the Department of Defense.

The requirements for acquiring the fittings described herein shall consist of this specification and the latest issue of MIL-F-52525.

REQUIREMENTS:

1. The connecting unit hardware shall conform to the Military Standard (MS or AN) part numbers specified in table I for the required military specifiication sheet fitting. (Figure 1 depicts the installation of this hardware.)

2. The "O" ring shall have a durometer hardness of 90 ±5.

CATALOGING DATA: The military specification part number is a definitive part number which corresponds to the flange size of the connecting unit covered by this specification sheet. The military specification sheet number and the code number for the flange size of the connecting unit are combined to form the military specification part number.

EXAMPLE: Military specification part number

The approved item name of this item, in accordance with the Federal Item Name Directory for the Federal Catalog System, Handbook H6, Section A is Flange.
