COMMERCIAL ITEM DESCRIPTION

HOLDER, LABEL, DESK TRAY, WOOD

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification GG-H-1488A.

This description covers label holders which clip onto 5/16 inch thick vertical walls of wood desk trays.

Salient characteristics.

The holders shall measure 2 ± 1/4 x 1-1/4 ± 1/4 inches, have a smooth finish and be resistant to rust and corrosion.

Not less than three preprinted and two blank labels shall be provided with each holder The preprinted labels shall display "Incoming" or "In", "Outgoing" or "Out" and "File" in neat characters not less than 5/16 inch high. Printing shall be entirely visible when the labels are inserted into the holders.

Labels shall be white, unruled, index or ledger paper not less than 0.007 inch thick. When inserted into the holder, the label shall be protected by clear, transparent plastic.

The holder shall fit snugly and present a neat appearance when attached to the desk tray.

The finish of the desk tray shall not be marred as a result of having the holder fastened and removed.

The holder shall be free from sharp edges and any other defects which affect appearance or serviceability.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices, and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing and marking. The packaging and packing shall be in accordance with normal commercial practice and shall assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.
