COMMERCIAL ITEM DESCRIPTION

PAPER, ELECTROGRAPHIC

The General Services Administration has authorized the use of this commercial item description.

This commercial item description contains the requirements for rolls of Electrographic Paper (EGP) to be used as a fully functioning component of the Honeywell Page Printing System (PPS).

Salient characteristics:

(1) The EGP shall be supplied in the following roll sizes as specified:

Size I - 11 inches wide ± 0.031 inches
Size II - 8-1/2 inches wide ± 0.031 inches

(2) The linear length shall be 3800 feet ± 20 feet per roll.

(3) Both sides of the EGP shall except writing using a #2 graphite pencil and a medium point ballpoint pen.

Qualification. EGP supplied in accordance with this commercial item description shall be in full compliance with Honeywell Specification No. A59754619 when qualified as specified in Honeywell Specification Number A59754620. The vendor may present to the contracting officer as evidence of compliance, Honeywell correspondence attesting thereto. In lieu thereof, a test report verifying compliance to the above documents from an independent laboratory acceptable to the Government may be submitted.

The issues of Honeywell Specification Number A59754619 and A59754620 in effect on the date of the solicitation shall be used to determine compliance with this requirement.

Regulatory requirements. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing and marking. Packaging, packing, and marking shall be as specified in the contract or order and shall comply with the National Motor Freight Classification and Uniform Freight Classification as a minimum.

Copies of Honeywell specifications are available from Director, General Products Division (FREG), General Services Administration, Federal Supply Services, Crystal Mall, Building 4, Room 420, Washington, DC 20406.
