COMMERCIAL ITEM DESCRIPTION

CLEANING COMPOUND, PORCELAIN AND CERAMIC TILE, ACID TYPE

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification P-C-1891.

This commercial item description covers an acid solution cleaning compound, type III, for use in cleaning porcelain, ceramic tile, and related surfaces.

Salient characteristics:

The cleaning compound shall be a liquid solution consisting of wetting agents, iron corrosion inhibitor, and of 5 to 10 percent titrable hydrogen chloride. The cleaning compound shall be clear and shall have no evidence of sediment.

Certification. The contrator shall certify that the product offered meets the salient charactertistic of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided under the provisions of the contract.

Packaging, packing, and marking. The packaging and packing shall be in accordance with normal commercial practice and shall assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.
