INTERIM COMMERCIAL ITEM DESCRIPTION

TEST KIT, HEMOGLOBIN DETERMINATION, HEMOGLOBIN S

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-ATT, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information.

This Interim Commercial Item Description covers Test Kit Hemoglobin Determination, used for the determination of hemoglobin S in blood.

Salient Characteristics:

Shall be a test kit for the determination of hemoglobin S in blood utilizing a phosphate buffer and a sodium hydrosulphite precepitation method.

For Size 1, the test kit shall contain:

(a) Sufficient saponin/sodium hydrosulphite powder and phosphate buffer solution for the performance of 12 tests.

(b) 12 graduated 12 by 75 mm test tubes.

(c) 12 sample pipettes (with rubber bulb).

(d) A test tube holder reader.

(e) Package insert.

For Size 2, the test kit shall contain:

(a) Sufficient saponin/sodium hydrosulphite powder and phosphate buffer solution for the performance of 100 tests.

(b) A package insert.

FSC 6550

DISTRIBUTION STATEMENT A. Approved for public release, distribution is unlimited.

Check the source to verify that this is the current version before use.

Not less than 16 months of the expiration dating period shall remain at time of delivery to the Government.

Workmanship. Test kit shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One test kit containing all components, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
