COMMERCIAL ITEM DESCRIPTION

SANCTUARY LAMPS, CANDLE TYPE, ELECTRIC TYPE

The General Services Administration has authorized the use of this commercial item description in preference to item 1, type I and II of MIL-S-43486A.

1. CLASSIFICATION

1.1 Classification. The commercial item description covers two types of sanctuary lamps, one candle type and one electric.

Type I - Candle type
Type II - Electric type

2. SALIENT CHARACTERISTICS

2.1 Design and construction. Type I, sanctuary lamp, candle type consists of three pieces: a base with holder straps, a cover with cross, and a glass insert. The base and cover shall be fabricated of commercial brass chrome plated (electrodeposited). The glass shall be ruby glass, uniform in color. The height, when assembled, shall be 15 inches ± 2 inches. Type II, sanctuary lamp, electric type, consists of three pieces: a base with holder straps, a cover with cross, and a glass insert. The base and cover shall be fabricated of commercial brass, chrome plated (electrodeposited). The sleeve shall have a white, baked enamel finish. Electric sanctuary lamps shall comply with the applicable requirements of Underwriters' Laboratories Standard for Safety. The glass shall be ruby glass, uniform in color. The height, when assembled, shall be 15 inches ± 2 inches.

2.2 UL. Acceptable evidence of meeting the requirements of UL shall be the UL label, a UL listing mark, or a certified test report from a recognized independent testing laboratory, acceptable to the Government, indicating that the electric sanctuary lamp has been tested and conforms to UL Standard No. 153.

FSC 9925

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

3. QUALITY ASSURANCE

3.1 Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producer's own drawings, specifications, standards, and quality assurance practices, and is the same as the product offered for sale in the commercial marketplace. When specific quality assurance provisions are specified for any commercial characteristic the contractor shall furnish data resulting from inspection conducted in accordance with the specific quality assurance provisions. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

4. PACKAGING

4.1 Packaging. The cover shall be removed from the sanctuary lamp. Each lamp and cover shall be completely wrapped in cushioning material. The lamp and cover shall then be packaged in the most compact manner in a snug-fitting fiberboard box.

4.2 Packing. Thirty-two sanctuary lamps, packaged as specified, shall be packed in a snug-fitting RSC style shipping container conforming to type CF, (variety SW) or SF, class domestic, grade 275 of PPP-B-636. The shipping container shall be completely filled with no voids and of a size that can be palletized in accordance with MIL-STD-147. Each shipping container shall be closed in accordance with the appendix of PPP-B-636.

4.3 Palletization. When specified (see 5.2), sanctuary lamps shall be palletized on a 4-way entry pallet in accordance with load type Ia of MIL-STD-147. Each prepared load shall be bonded by means K and L, or film bonding means O or P, in accordance with MIL-STD-147.

4.4 Marking. In addition to any special markings required by the contract or purchase order, unit packs, shipping containers, and unitized pallet loads shall be marked in accordance with MIL-STD-129.

5. NOTES

5.1 Intended use. The sanctuary lamps are intended for use in the sanctuary of Military Chapels.

5.2 Ordering data.

a. Title, number, and date of this document.
b. Type of lamp required (see 1.1).
c. When palletization is required (see 4.3).
