COMMERCIAL ITEM DESCRIPTION

CUTTER SET, COOKIE

The General Services Administration has authorized the use of this commercial item description in preference to MIL-C-17519.

1. SALIENT CHARACTERISTICS

1.1 Design and construction. The cutter set shall consist of three circular cutters with nominal diameters of 2, 2-1/2, and 3 inches. The cookie cutters shall be fabricated from corrosion-resisting steel sheets conforming to any type in the 300 series, and shall have a nominal height of 1-1/4 inches. The cutting edge shall be sharp and smooth and the top edge shall be rolled. The handle shall be made of the same material as the body and shall be welded to the body. The cookie cutter sets shall not be fractured, split, punctured, dented, bowed, malformed, or show any signs of deterioration. Welds shall be sound and free from pits and flashes. There shall be no slivers, burrs or sharp edges.

1.2 Codes and standards. All surfaces of the finished cookie cutter set shall conform to National Sanitation Foundation Basic Criteria C-2.

1.3 Marking for identification. Each cookie cutter shall be marked for identification in accordance with the manufacturer's standard practice. If the identification marking is stamped, the surface opposite the marking shall show no signs of penetration or uneveness.

2. QUALITY ASSURANCE

2.1 Certification. The contractor shall certify that the product offered meets the salient characteristics of the description and conforms to the producer's own drawings, specifications, standards and quality assurance practices, and is the same as the product offered for sale in the commercial marketplace. When specific quality assurance provisions are specified for any commercial characteristic, the contractor shall furnish data resulting from inspection conducted in accordance with the specific quality assurance provisions. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

AMSC N/A FSC 7330

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

3. PACKAGING

3.1 Packaging and packing. Packaging and packing shall be commercial or export as specified (see 4.2).

3.2 Commercial packaging and packing. Each cookie cutter set shall be cleaned, preserved, packaged, packed, and unitized in accordance with ASTM D 3951.

3.3 Export packaging and packing.

3.3.1 Export packaging. Each cookie cutter set shall be cleaned, preserved, and cushioned to protect against corrosion, deterioration, and physical damage during shipping and storage. Each cookie cutter set shall be packaged in a plastic bag. Twelve cookie cutter sets shall be packaged in a paperboard box to create an intermediate package.

3.3.2 Export packing. Seventy-two cookie cutter sets shall be packed in a fiberboard box constructed, closed and reinforced to conform to grade V3C, V3s, or V4s, style RSC of PPP-B-636. Reinforcement shall be limited to nonmetallic strapping or pressure-sensitive adhesive filament reinforced tape.

3.3.3 Palletization. When specified (see 4.2), shipping containers shall be palletized in accordance with MIL-STD-147.

3.4 Labeling (commercial and export). Commercial labeling shall be acceptable.

3.5 Marking (commercial and export). Marking of the unit packs, shipping containers, and unit loads shall be in accordance with MIL-STD-129 or ASTM D 3951, as applicable.

4. NOTES

4.1 Intended use. The cookie cutter sets are intended for use in fixed messes, field kitchens and galleys.

4.2 Ordering data. Acquisition documents should specify the following:

a. Title, number and date of this document.
b. Selection of applicable levels of packaging and packing (see 3.1).
c. When palletization of shipping containers is required (see 3.3.3).
