FF-L-2740A
Amendment 1
May 25, 2001

AMENDMENT

TO

FEDERAL SPECIFICATION

LOCKS, COMBINATION

The General Services Administration has authorized the use of this amendment, which forms a part of FF-L-2740A, dated January 12, 1997.

Page 6

Add the following paragraph:

3.10 Assembly drawing and parts list. A parts list of all lock parts which may be subject to subsequent replacement because of wear or damage shall be furnished with each lock delivered under contract. The parts list shall clearly identify the parts by description, location and part number. When necessary, assembly drawings shall be provided to show the location of the parts. The parts list shall be printed on heavy paper or other suitable material.

Page 12

Delete paragraph 6.3.1 and substitute the following:

6.3.1 Covert entry. For the purpose of this specification, covert entry is defined as a method of entry which causes physical damage to the container or lock such that the damage can be repaired to the point where it would not be detectable by a user during normal use. However, the damage would be detectable during inspection by a qualified person. If replacement parts, including replacement lock parts, or paint, are necessary to conceal the damage caused by the entry attempt so it cannot be detected during normal use, the entry method shall be considered covert.
