DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

2. TITLE	1. IDENTIFICATION NUMBER
Air Force Recoverable Asset Management System (AFRAMS) Report	DI-ILSS-80486

3. DESCRIPTION/PURPOSE

3.1. The AFRAMS report provides recoverable item balance and demand data to the Air Force Logistics Command Item Managers for future provisioning.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC REQUIRED	6b. GIDEP REQUIRED
871105	F/HQ AFSPACECOM-LKSP		

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in th contract.

7.2 The AFRAMS report is applicable to contracts where the contractor will be running an Ai Force base supply function other than a Standard Base Supply System.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
	AF Form 1530	F4266

10. PREPARATION INSTRUCTIONS

10.1 Format. Punch Cards or AF Form 1530, "Punch Card Transcript."
Note: If the AF Form 1530 is used, handscribe "AFRAMS Daily Report" in the large blank spac at the top.

10.2 Content. This report shall contain data as indicated below:

10.2.1 AFRAMS Reporting Asset/Level Format. This format shall be used when reporting a change in any data field for columns 35-79.

Card Column (Col)	Data Element	Remarks
1-3	Item Manager Air Logistic Center (IM/ALC) routing identifier	Note 1.
4-7	Federal Stock Class (FSC)	Federal supply class.
8-16	National Item Identification Number (NIIN)	National item identification number.
17-18	Materiel Management Code (MMC)/blank	Report Materiel Management Code, if applicable.
19	Expendability-Recoverability-Repairability Category Code (ERRC)	"XD1-C", "XD2-T" (note 2)
20-21	Unit of issue	Use current catalog data.

(Continued on Page 2)

11. DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:37Z
Check the source to verify that this is the current version before use.

10. Preparation Instructions (Continued)

rd Columns	Date Element	Remarks
22-27	Stock Record Account Number (SRAN)	Report six-position SRAN (cols 22-23 are alpha; for example, "FB." Cols 24-27 are numeric; for example, 4346).
28-29	Ownership account or system designator code (SDC)	Report 01 for non-weapon item, double numeric SDC for weapon item (note 3).
30-33	Julian date for "as of" report day.	(YDDD) (note 4).
34	Report identity code.	Report "D." Report "R" for reconciliation.
35-41	Serviceable balance.	Notes 5 and 6.
42-44	Filler.	Numeric 000.
45-46	Unserviceable balance.	Notes 5 and 6.
47-50	Due in from maintenance balance.	Notes 5 and 6.
51-54	War Reserve Materiel (WRM)	Notes 5 and 6.
55-58	WRM level.	Notes 5 and 6.
59-63	Demand level.	Notes 5 and 6.
64-70	Requisitioning objective.	Notes 5 and 6.
71-73	Due-in quantity.	Notes 5 and 6.
74-77	Due Out to Maintenance (DOTM) balance.	Notes 5 and 6.
78-79	Due-out quantity.	Notes 5 and 6.
80	Record identification.	Numeric "4."

NOTE 1: Oklahoma City-ALC "FHZ"; Ogden-ALC "FGZ"; San Antonio-ALC "FPZ"; Sacramento-ALC "FFZ"; Warner Robins-ALC "FLZ." .
NOTE 2: Report new record if ERRC designator changes to "XD1," or "XD2."
NOTE 3: Report separate record for each ownership account/SDC the same SRAN.
NOTE 4: A zone indicator over col 30 will prevent Item Manager ALC computation of excess.
NOTE 5: For definition of fields see figure 1.
NOTE 6: Prefix unused columns (all fields cols 35-79) with zeros. Fill unused fields (cols 35-79) with zeros.
Report zero record if all fields (cols 35-79) are reduced to zero.

Check the source to verify that this is the current version before use.

10. Preparation Instructions (Continued)

10.2.2 AFRAMS Reporting Transaction Data Format. This format is required when the ERRC designator changes to "XD1" or "XD2".

Card Columns	Data Element	Remarks
1-3	IM ALC routing identifier.	Note 1.
4-7	FSC.	Federal supply class.
8-16	NIIN.	National item identification number.
17-18	(MMC)/blank.	Report MMC, if applicable.
19	ERRC code.	"XD1-C," "XD2-T," (note 2).
20-21	Unit of issue.	Use current catalog data.
22-27	AF SRAN.	Report six-position SRAN (cols 22-23 are alpha, suc as "FB;" cols 24-27 are numeric, such as 4346).
28-29	Ownership account or System designator code (SDC).	Report "01."
30-33	Julian date for "as of" report day.	(YDDD).
34	Report identity code.	Report "D."
35-41	Increase to account.	Notes 3, 4, 5 and 6.
42-46*	Reparable this station.	Notes 3, 4, 5 and 6.
47-50*	Plus Inventory Adjustment Voucher (IAV) quantity.	Notes 3, 4, 5 and 6.
51-54*	Not reparable this station	Notes 3, 4, 5 and 6.
55-58*	Shipped from account.	Notes 3, 4, 5 and 6.
59-63*	Condemned.	Notes 3, 4, 5 and 6.
64-70*	Transfers to Defense Reutilization Marketing Office	Notes 3, 4, 5 and 6.
71-73*	Initial installation issues.	Notes 3, 4, 5 and 6.
74-77*	Minus IAV quantity.	Notes 3, 4, 5 and 6.
78-79	Base repair cycle time/blank.	Notes 3, 4 and 7.
80	Record identification.	Numeric "6."

NOTE 1. OC-ALC, "FHZ"; OO-ALC, "FGZ"; SA-ALC, "FPZ"; SM-ALC, "FFZ"; WR-ALC, "FLZ."
NOTE 2. If ERRC designator changes from "XF3" to "XD1," or "XD2" report data accumulated thus far in quarterly Stock Balance and Consumption Report (SB&CR) period 0 to 90 d
NOTE 3. For definition of fields see figure 1.
NOTE 4. Report summary by SRAN, of data accumulated. Reports are not required if all quantitative fields (cols 35-79) are zero.
NOTE 5. Report 12 zone in units position (see *) if quantity report is positive; report 11 zone if negative. For bases manually reporting on AF Form 1530, place "P" over units position if quantity is negative. Unused fields (cols 35-77) will be filled with zeros to include a 12 zone or P in units position.
NOTE 6. Prefix unused cols, all fields (cols 35-77) with zeros.
NOTE 7. Should daily accumulation of base repair cycle time for any given item exceed 99 days, enter 99 in cols 78-79.

10. Preparation Instructions (continued)

10.2.3 Quarterly SB&CR Asset/Level Format. This format shall be used on all centrally procured equipment items in the base account for ERRC designators "ND2" and "NF2."

Card Columns	Data Element	Remarks
1-3	IM ALC routing identifier	Note 1.
4-7	FSC.	Federal supply class.
8-16	NIIN.	National item identification number.
17-18	MMC/blank	Report MMC, if applicable.
19	ERRC.	NF3-U; ND2-S (note 2).
20-21	Unit of issue.	Use current catalog data.
22-27	AF SRAN.	Report six-position SRAN as applicable; (cols 24-27 are numeric, such as 4346).
28-29	Account or system designator code (SDC).	Report 01 for non-weapon item. Report double numeric SDC for weapon items (note 3.)
30-33	Julian date for "as of" report date.	Note 6.
34	Report identity code.	Report Q.
35-41	Serviceable balance.	Notes 4 and 5.
42-46	Unserviceable balance.	Notes 4 and 5.
47-50	DIFM balance.	Notes 4 and 5.
51-54	WRM balance.	Notes 4 and 5.
55-58	WRM level.	Notes 4 and 5.
59-63	Demand level.	Notes 4 and 5.
64-70	Requisitioning objective.	Notes 4 and 5.
71-73	Unused.	Keypunch zero or leave blank.
74-77	DOTM balance.	Notes 4 and 5.
78-79	Unused.	Keypunch zero or leave blank.
80	Record identification.	Numeric 1.

NOTE 1. OC-ALC, "FHZ"; OO-ALC, "FGZ"; SA-ALC, "FPZ;" SM-ALC, "FFZ"; WR-ALC, "FLZ."
NOTE 2: If ERRC code changes to "NF2" or ND2," the item must be reported.
NOTE 3: Report separate record for each ownership account/SDC of the same SRAN.
NOTE 4: For definition of fields see figure 1.
NOTE 5: Zero records (zero in all data fields cols 35-79) not required. Prefix unused cols (all fields cols 35-79) with zeros. Fill unused fields (cols 35-79) with zeros.
NOTE 6: When to report: As of 31 March, 30 June, 30 September and 31 December. Reports are due at the IM ALC no later than 5 April, 5 July, 5 October and 5 January, respectively.

10. Preparation Instructions (continued)

10.2.4 Quarterly SB&CR Transaction Data Format. This format shall be used on all centrally procured equipment items in the base account for ERRC "ND2" and "NF2."

Card Columns	Data Element	Remarks
1-3	IM ALC routing identifier.	Note 1.
4-7	FSC.	Federal supply class.
8-16	NIIN.	National item identification number.
17-18	MMC/blank.	Report MMC, if applicable.
19	ERRC.	"NF2-U"; "ND2-S," (note 2).
20-21	Unit of issue	Use current catalog data.
22-27	AF SRAN.	Report six-position SRAN as applicable (cols 24-27 are numeric, such as (4346).
28-29	Ownership account.	Report 01.
30-33	Julian date for as of report date.	Note 5.
34	Report identity code.	Report "Q."
35-41	Increase to account.	Notes 3 and 4.
42-46	Reparable this station.	Notes 3 and 4.
47-50	Plus IAV quantity.	Notes 3 and 4.
51-54	Not reparable this station.	Notes 3 and 4.
55-58	Shipped from account.	Notes 3 and 4.
59-63	Condemned.	Notes 3 and 4.
64-70	Transfers to DRMO.	Notes 3 and 4.
71-73	Initial installation issues.	Notes 3 and 4.
74-77	Minus IAV quantity.	Notes 3 and 4.
78-79	Base repair cycle time.	Keypunch zero or leave blank.
80		Numeric 2.

NOTE 1. OC-ALC, "FHZ"; OO-ALC, "FGZ"; SA-ALC, "FHZ;" SM-ALC, "FFZ"; WR-ALC, "FLZ."
NOTE 2. If ERRC code changes to "NF2" or "ND2," during the report cycle (90 days) the data accumulated as of the SB&CR date must be reported.
NOTE 3. For definition of fields see figure 1.
NOTE 4. Report a 90-day summary of all data accumulated since day of last quarterly SB&CR. Zero records (zero in all data fields col 35-79) not required. Prefix unused col (a fields cols 35-79) with zeros. Fill unused fields (cols 35-79) with zeros.
NOTE 5. When to report: As of 31 March, 30 June, 30 September, and 31 December. Reports ar due at the IM ALC no later than 5 April, 5 July, 5 October, and 5 January, respectiv

10. Preparation Instructions (continued)

10.2.5 Daily Critical Item Report Format. This format shall be on all critical items assigned ERRC designator "SB3" or "XF3" when a change is made in reported data elements.

Card Columns	Data Element	Remarks
1-3	IM ALC routing identifier.	Note 1.
4-7	FSC.	Federal supply class.
8-16	NIIN.	National item identification number.
17-18	MMC/blank.	Report MMC, if applicable.
19	ERRC.	"XF3-P"; XB3-N."
20-21	Unit of issue.	Use current catalog data.
22-27	AF SRAN.	Report six-position SRAN (cols. 22-23 are alpha; for example "FB." Cols. 24-27 are numeric, such as 4346).
28-29	Ownership account or System designator code (SDC).	Report 01 for non-weapon item. Report double numeric SDC for weapon system manager items (note 2).
30-33	Julian date for as of report date.	(YDDD).
34	Report identity code.	Report "C."
35-41	Serviceable balance.	Notes 3 and 4.
42-46	Unserviceable balance.	Notes 3 and 4.
47-50	DIFM balance.	Notes 3 and 4.
51-54	WRM balance.	Notes 3 and 4.
55-58	WRM level.	Notes 3 and 4.
59-63	Demand level.	Notes 3 and 4.
64-70	Requisition objective.	Notes 3 and 4.
71-73	Due in quantity.	Notes 3 and 4.
74-77	DOTM balance.	Notes 3 and 4.
78-79	Due out quantity.	Notes 3 and 4.
80	Record identification.	Numeric "1."

NOTE 1. OC-ALC, "FHZ"; OO-ALC, FGZ"; SA-ALC, "FPZ"; SM-ALC, "FFZ"; WR-ALC, "FLZ."
NOTE 2: Report separate record for each ownership account/SDC of the same SRAN.
NOTE 3: For definition of fields see figure 1.
NOTE 4: Report for a zero record (all fields 35-79) are not required. Prefix unused cols (all field cols 35-79) with zeros. Fill unused fields (cols 35-79) with zeros.

10. Preparation Instructions (continued)

REPORTING ELEMENTS

Data and definitions to be reported in Stock Balance and Consumption Report (SB&CR) are as follows:

a. Condemned quantity - That quantity condemned due to fair wear and tear during the report period. Transfers to Defense Reutilization and Marketing Office (DRMO) due to reasons other than fair wear and tear will not be included in this quantity.

b. Demand level - The base level in support of the normal operating requirements.

c. Due-in-from Maintenance (DIFM) balance - This balance consists of unserviceable (reparable) assets (spares) DIFM for which a serviceable (spare) asset has been issued to maintenance.

d. Due-in quantity - That quantity on requisition which to date has not been received and picked up on the base accountable record.

e. Due-out quantity - The total quantity of due-outs (excluding war reserve materiel (WRM) due-outs) to activities/ organizations as recorded on the accountable record, which to date has not been supplied by the base. This quantity must include any existing due-out to maintenance (DOTM) balance.

f. Due-out to maintenance (DOTM) balance - The quantity of an item which has been removed from aircraft, missile, or other end items including a spare component and turned in to supply (picked up by the accountable record) for which replacement is required and to date has not been supplied.

g. Increases to the base account - The total quantity received into the stock record account during the report period which resulted in an inventory increase to the base accountable record.

h. Initial installation issues - That quantity represented by decreases to the accountable record resulting from initial installation issues during the report period. An initial installation issue is made to supply a demand for which a like item will not be turned into the supply accountable record.

i. Minus inventory adjustments - The quantity representing all decreases to the accountable record resulting from inventory adjustment vouchers (IAVs) during the report period.

j. Not reparable this station quantity - The unserviceable (reparable) quantity evacuated to Air Logistics Centers (ALCs) or overhaul contractors for depot level repair during the report period.

k. Plus inventory adjustments - The quantity representing all increases to the accountable record resulting from IAVs during the report period. This quantity is a part of the total quantity reported as increases to the base account.

FIGURE 1. Reporting Elements

Source: https://assist.dla.mil -- Downloaded: 2026-10-26T10:37Z
Check the source to verify that this is the current version before use.

10. Preparation Instructions (continued)

l. Repaired this station quantity - The quantity of unserviceable assets repaired on base during the report period.

m. Requisitioning objective - The total base requisitioning requirement. This includes the demand level (adjusted to minimum, maximum, or fixed) plus WRM level and/or the high priority mission support kit (HPMSK) level.

n. Serviceable balance - All serviceable assets, including Technical Order Compliance (TOC), on the accountable record except WRM regardless of location on the base. Includes assets in forward support stocks, special projects and/or other stockage points.

o. Shipments from account - The quantity serviceable or unserviceable shipped to other SRANs that resulted in a decrease to the accountable balance during the report period.

p. Transfers to Defense Reutilization Marketing Office (DRMO) - The quantity transferred to the DRMO activity during the report period (excluding condemnations reported under heading condemned).

q. Unserviceable balance - All unserviceable assets on the accountble record including TOC quantity.

r. War Reserve Material (WRM) balance - The sum total of the mobilization reserve WRM assets appearing on the base supply accountable record and WRM assets in war readiness spare kits (WRSKs). Reporting of WRSKs, enroute support kits, and mission support kits when units are deployed from the home base:

(1) Units deployed for 30 days or less. The home base will be responsible for reporting the assets in all SB&CRs. Therefore, accountability will remain at the home base when deployment is for short duration.

(2) Units deployed for over 30 days. The main operating base will be responsible for reporting the assets in all SB&CRs. The kits will be inventoried at the main operating base, picked up on the accountable record and simultaneously dropped from the home bases's accountable record. The main operating base will report the assets in the SB&CR regardless of whether the deployed unit is physically located at the main operating base or at a forward base.

(3) The preceding policy requires that in all cases, the deployed units source of supply will report the kit items in the SB&CR.

s. WRM level - The authorized base WRM level (the WRM level is always an additive to the base demand level).

t. Base repair cycle time (BRCT) - The actual BRCT for any given AFRAMS reportable transaction.
