DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

1. TITLE	2. IDENTIFICATION NUMBER
DATA LOAD WORKSHEET	DI- MISC- 80504

3. DESCRIPTION/PURPOSE

3.1 Provides data for the initiation and maintenance of a computerized technical documentation accessioning file.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
880115	G/T213		

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

(continued on page 2)

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
	DD Form 2390	G4287

10. PREPARATION INSTRUCTIONS

10.1 Reference documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as specified in the contract.

10.1.1 Each Data Load Worksheet (DD Form 2390) contains information for each technical document/publication developed or acquired for use with the system, subsystem, equipment, computer program, and firmware items to be delivered under this contract.

10.1.2 Abbreviations shall be in accordance with MIL-STD-12.

10.1.3. Worksheets shall identify the following type of Operational and Maintenance Publications, as applicable to each system/equipment/computer program/firmware item.

a. System/Subsystems Manuals

b. Equipment Manuals

(Continued on Page 2)

11. DISTRIBUTION STATEMENT
DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

Block 7, Application/Interrelationship (Continued)

7.2 Applicable to programs where technical data are to be developed/acquired for the operational and logistic support of systems/equipment.

7.3 Engineering drawings are excluded from this requirement.

7.4 This DID supersedes DI-M-5581.

Block 10, Preparation Instructions (Continued)

c. Subassembly/Piece Part Data Sheets, Specifications and/or Brochures.

d. Operations Plans

e. Maintenance Plans

f. Operator Instructions/Procedures

g. Preventive/Corrective Maintenance Procedures and Schedules

h. Calibration Schedules, Specifications and Procedures

i. Maintenance, Test and Support Equipment Records

j. System/Subsystem Cabling/Wiring Lists

10.1.4. FORMAT and CONTENT. Data Load Worksheet

a. BLOCK 1 - Accession Number. No entry required. Assigned by the Government.

b. BLOCK 2 - FSCM. Identifies the corporate author of the manual. Taken from H-4-1 - Commercial and Government Entity (CAGE). FSCM has been superseded by CAGE.

c. BLOCK 3 - Security Classification. A one character alpha entry selected from the list provided on the worksheet. If there is a classified and unclassified version of the same manual, a separate worksheet is required for each.

d. BLOCK 4 - Title. This entry shall record the complete title exactly as shown on the title page of the manual.

e. BLOCK 5 - Document Number. Enter all of the document numbers that appear on the manual. There may be more than one.

f. BLOCK 6 - Nomenclature. Enter only official Joint Electronic Type Designator System nomenclature, e.g., AN/TNH-27. Do not enter model numbers.

g. BLOCK 7 - Model Number. Enter the major model number(s). Several may be used.

Check the source to verify that this is the current version before use.

Block 10, Preparation Instructions (Continued)

h. BLOCK 8 - Document Type. Enter a single word or combination of words. e.g., Installation, Operation, Maintenance, Program, Drawings, etc. The words"Technical" and "Service" are not acceptable.

i. BLOCK 9 - Serial Number. This entry ties a specific series of equipment to a specific manual.

j. BLOCK 10 - Document Size. Oversized manuals receive accession numbers from a unique number series because they are filed separately.

k. BLOCK 11 - Change Number. Enter the change level. New manuals containing incorporated changes will receive the same accession number as the basic manual. The computer file will be changed to show the current change level.

l. BLOCK 12 - Change Date. Enter the date of the change.

m BLOCK 13 - Revision Level. Enter the revision designator. Revised manuals receive one up accession numbers from the basic manual.

n. BLOCK 14 - Revision Date. Enter the date of the revision.

o. BLOCK 15 - Date of Publication. Often found on the title page or a separate printing history page. Enter the date the manual was originally published, not its most recent "print date".

p BLOCK 16 - Completed By: Name of the person who completed the Data Load Worksheet.

q. BLOCK 17 - Date Completed. Enter the date the worksheet was filled in.

10.1.5 Clarity

For clarification purposes, observe the following:

a. Slash the zero, e.g., ∅.

b. Bar the Z to distinguish it from a 2.

c. Put a base on the digit "1".

d. Distinguish a U from a V by making the former with a flat bottom and the latter with a sharp point.
