DATA ITEM DESCRIPTION

Title: Data Load Worksheet

Number: DI-MISC-80504A
AMSC Number: 7635
DTIC Applicable: N/A
Office of Primary Responsibility: NS/DA02
Applicable Forms: DD Form 2390

Approval Date: 14 Nov 2006
Limitation: N/A
GIDEP Applicable: None

Use/relationship:

Provides data for the initiation and maintenance of a computerized technical documentation-accessioning file.

This Data Item Description (DID) contains the format and content preparation instructions for each tech data product generated by the specific and discrete task requirement as delineated in the contract.

Applicable to programs where technical data are to be developed/acquire for the operational and logistic support of system/equipment.

Engineering drawings are excluded for this requirement.

This DID supersede DI-MISC-80504.

Requirements:

1. Reference documents: The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as cited in the current issue of the DODISS at the time of the solicitation; for non DODISS-listed documents, as stated herein.

1.1 Each Data load Worksheet (DD form 2390) contains information for each technical documentation/publication developed or acquired for use with the system, subsystem, equipment, computer program, and firmware items to be delivered under this contract.

1.2 Abbreviations shall be in accordance with MIL-STD-12.

1.3 Worksheets shall identify the following type of Operational and Maintenance Publication, as applicable to each system/equipment/computer program/firmware item.

a. System/Subsystem Manuals.

Check the source to verify that this is the current version before use.

b. Equipment Manuals.
c. Subassembly/Piece Parts Data Sheets, Specification and Brochures.
d. Operations Plans.
e. Maintenance Plans.
f. Operator instructions/Procedures.
g. Preventive/Corrective Maintenance Procedures and Schedules.
h. Calibration Schedules, Specification and Procedures.
i. Maintenance, Test and Support Equipment Records.
j. System/Subsystem Cabling/Wiring lists.

2. Format and Content. Data Load Sheet.

a. Block 1 – Accession Number. No entry required. Assigned by the Government.
b. Block 2 – FSCM. Identifies the corporate author of the manual. Taken from H-4-1 – Commercial and Government Entity (CAGE). FSCM has been supersede by CAGE.
c. Block 3 – Security Classification. A one character alpha entry selected for the list Provided on the worksheet. If there is a classified and unclassified version of the Same manual, a separate worksheet is required for each.
d. Block 4 – Title. This entry shall record the complete title exactly as shown on the Title page of the manual.
e. Block 5 - Document Number. Enter all of the document numbers that appear on The manual. There may be more than one.
f. Block 6 – Nomenclature. Enter only official Joint Electronic Type Designator System nomenclature, e.g., AN/TNH-27. Do not enter model numbers.
g. Block 7 - Model Number. Enter the major model number(s). Several may be Used.
h. Block 8 - Document Type. Enter a single word or combination of words, e.g., Installation, Operation, Maintenance, Program, Drawings, etc. The words " Technical" and 'Service" are not acceptable.
i. Block 9 - Serial Number. This entry ties a specific series of equipment of a Specific manual.
j. Block 10 - Document Size. Oversized manuals receive accession numbers for a Unique number series because they are filled separately.
k. Block 11 - Change Number. Enter the change level. New manuals containing Incorporated changes will receive the same accession number as the basic manual. The computer file will be changed to show the current change level.
l. Block 12 - Change Date. Enter the date of the change.
m. Block 13 - Revision Level. Enter the revision designator. Revision manuals receive one up accession number from the basic manual.
n. Block 14 - Revision Date. Enter the date of the revision.
o. Block 15 - Date of Publication. Often found on the title page or a separate printing history page. Enter the date the manual was originally published, not Its most recent "print date'.
