DATA ITEM DESCRIPTION

Form Approved
OMB No 0704-0188

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503

1. TITLE	2. IDENTIFICATION NUMBER
POWER PLANT OPERATION AND MAINTENANCE REPORT	DI-MISC-80519A

3. DESCRIPTION / PURPOSE

3.1 This report identifies the contractor's power plant operation and maintenance activity and is used to project future maintenance requirements and possible problem areas.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b GIDEP APPLICABLE
901220	F/AFSPACECOM-DEOS		

7. APPLICATION / INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

7.2 This data item may be applied to any contract requiring operation and maintenance of a continuous operation power plant (prime or standby).

7.3 This DID supersedes DI-MISC-80519.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		F6013

10. PREPARATION INSTRUCTIONS

10.1 Format. The Power Plant Operation and Maintenance Report shall be prepared in a format similar to that given at Figure 1.

10.3 Content. The report shall contain the following data, keyed to Figure 1.

Item A: Enter manufacture and model of engines for each engine position number installed in the power plant.

Item B: Enter location of power plant, site or base.

Items C, D: self-explanatory.

Sec I: Enter kilowatt (KW) rating of diesel-electric generator in applicable position number column and complete items 1 through 7 which are self explanatory.

(Continued on Page 2)

11. DISTRIBUTION STATEMENT

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

Block 10, Preparation Instructions (Continued)

Sec II: Item 8 - Enter type of inspection completed during the month Preceded by I; for example, I-700, I-4000, and I-1000, etc. Overhauls shall be entered as actual hours since last overhaul or new, preceded by H; for example, H-23180. When historical records are available to determine the number of overhauls since new, enter the number of overhauls instead of H; for example, 2-16203, to indicate the second overhaul since new, and 16203 hours since last overhaul.

Item 9 through 12 - Operating hours since last inspection or overhaul as of the end of the reporting month.

Sec III: Item 13, 14, 15 - Self-explanatory; storage tank balances shall be determined by sounding.

Item 16 - This item is obtained from fuel flow meters and should approximate item 4 total.

Item 17 - Accumulated total of items 16 during the FY.

Item 18 - Self-explanatory.

Item 19 - Multiply item 16 by item 18.

Item 20, 21 - self explanatory.

Sec IV: Item 22, 23 - Data from item 19.

Item 24 - Enter cost for all parts and supplies used in the plant during the reporting month. Include filters, wiping rags, cleaning materials, etc., actually purchased or acquired with station funds.

Item 25 - Self-explanatory.

Item 26 - Use contractor established shoprates for actual cost to government for contractor employees working in the power plant. Include both operating, maintenance and supervisory personnel. Prorate labor costs for personnel with other than power plant duties.

Item 27 - Enter In-service Work Plan (IWP) work or job orders by number, labor and parts cost applicable to work in the power plant. Include plant switchgear, station battery systems, etc. Transformer and distribution system work shall be excluded.

Item 28 - Total of items 22 through 27.

Item 29 - Divide item 28 by item 3 (total).

JMMARY OF UNSCHEDULED MAINTENANCE - Enter a concise account of maintenance
