FEDERAL QUALIFIED PRODUCTS LIST

OF

PRODUCTS QUALIFIED UNDER FEDERAL SPECIFICATION

W-T-1604A

PRODUCTS QUALIFIED UNDER INTERIM FEDERAL SPECIFICATION

QPL-W-T-1604A
NOTICE-1
July 29, 1974

FSC 7045

TAPE, PERFORATOR TYPE, POLYESTER BASE

The General Services Administration authorized this list to identify products eligible for consideration in Federal Government procurement under the subject specification. The Government has qualified each product as meeting applicable requirements of the latest effective issue of the subject specification and has identified the source of each qualified product by the name, address, and plant location of the manufacturer. The listing of a product is not an endorsement by the Federal Government and does not release the supplier from compliance with specification requirements. The Government will revise, amend, or cancel this list as necessary, without prior notice, to reflect actions by the Government or the manufacturer requiring modification or discontinuance of any or all of the information herein. The brand name designation under which the product is offered for sale to the general public is capitalized and enclosed in quotation marks in the Manufacturer's Designation or "BRAND NAME" column, provided the manufacturer or his authorized distributor has certified that the product submitted for qualification is the same product, except for packaging and marking, and is the only product available on the public market by that brand name. This information may be referred to for advertising or publicity only to state that the product of a particular manufacturing facility is listed and identified here, or that such product meets the requirements of the subject specification, provided that test results are publicly available to verify the statement, and provide further that such advertising or publicity does not claim or imply Government preference or endorsement or that the product is the only one of its type that has passed the prescribed tests.

The activity responsible for this Qualified Products List is the General Services Administration, Federal Supply Service, Washington, DC 20406.

GOVERNMENT DESIGNATION	MANUFACTURER'S DESIGNATION "BRAND NAME"	TEST OR QUALIFICATION REFERENCE NUMBER	MANUFACTURER'S NAME. (See SUPPLEMENT for addresses and plants not listed here.)

As of July 29, 1974 no perforator tape has been tested and qualified under Federal Specification W-T-1604A, dated September 12, 1973. Pending the establishment of a Qualified Products List or the approval of a product for inclusion on the Qualified Products List, the qualification requirements (paragraph 3.2), and the qualification tests of Federal Specification W-T-1604A, shall be waived; however, perforator tape furnished under Federal Specification W-T-1604A shall be capable of meeting the qualification tests, and procuring agencies may require contractors to furnish preproduction samples of perforator tape that they propose to supply, for Government inspection and contractual approval.

When a Qualified Products List is established for Federal Specification W-T-1604A, this notice shall be destroyed.
