* Beakers shall hold not less than 105% of their nominal capacity.
** Nominal

Ⓒ MATERIAL: MS35992-2 through MS35992-11 beakers shall be of borosilicate glass in accordance with Federal Specification DD-G-541, Type 1, Class A.

MS35992-12 through MS35992-18 beakers shall be of polypropylene.

Ⓒ DESIGN: Beakers shall be low form (Griffin design) with straight sides forming a well rounded junction with the bottom. Beaker bottoms shall be slightly concave. Upper edge of the beakers shall be flared outward and shall have a pour-out spout.

Beakers shall be graduated unless otherwise specified.

Beakers over 1,000 mL capacity may have tapered sides.

Upper edge of beakers MS35992-2 through MS35992-11 shall be slightly thickened and shall be furnished with a fire-polished rim.

Each beaker shall have a roughened area for marking.

Each beaker shall be permanently and legibly marked with the capacity.

NOTES:
1. Acquisition document for borosilicate glass beakers is Federal Specification NNN-B-175.
2. Acquisition document for polypropylene beakers is Military Specification MIL-B-36268.
3. In the event of a conflict between the text of this standard and the references cited herein, the text of this standard shall take precedence.
4. Referenced Government documents of the issue listed in that issue of the Department of Defense Index of Specifications and Standards (DODISS) specified in the solicitation form a part of this standard to the extent specified herein.

APPROVED 15 NOV 1959 REVISED Ⓐ 20 JUN 1969 Ⓑ 24 NOV 1978 Ⓒ 16 MAR 1987

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

This military standard is approved for use by all Departments and Agencies of the Department of Defense. Selection for all new engineering and design applications and for repetitive use shall be made from this document.
