FED. SUP CLASS
6640

MATERIAL: Clamp shall be made of steel sheet in accordance with ASTM Specification A366.

DESIGN: The clamp shall be made to support a flat meter stick, up to 26 mm wide, vertically on rods of from 10 to 19 mm diameter. The clamp design shall permit firm clamping to rods without exerting excessive pressure on clamp screw. A protecting strip shall be provided to protect edge of meter stick from damage by clamping screw.

NOTE: Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements specified herein.

USER ACTIVITIES: ARMY - MD, DM
NAVY - MS

REVIEWER ACTIVITIES: ARMY - ME
NAVY - OS
AIR FORCE - 82

APPROVED 30 JUN 1983 REVISED

This military standard is approved for use by all Departments and Agencies of the Department of Defense. Selection for all new engineering and design applications and for repetitive use shall be made from this document.
