MILITARY SPECIFICATION
FIRE CONTROL PARTS, EQUIPMENT, AND TOOLS; PACKAGING OF

1. SCOPE

1.1 This specification, with individual packaging data sheets, covers the preparation of fire control spare parts, equipment and tools for all levels of protection.

2. APPLICABLE DOCUMENTS

2.1 The following documents, of the issue in effect on date of invitation for bids, form a part of this specification.

SPECIFICATIONS

Federal

UU-T-111	Tape; Paper, Gummed (Sealing and Securing)
PPP-B-636	Boxes, Fiber
PPP-B-676	Boxes, Set-Up, Paperboard
PPP-T-76	Tape, Pressure-Sensitive, Adhesive, Paper, Water Resistant
PPP-T-0097	Tape, Filament Reinforced

Military

MIL-P-116	Preservation, Methods of
MIL-p-14232	Parts, Equipment and Tools For Ordnance Materiel Packaging of

STANDARDS

MIL-STD-129	Marking for Shipment and Storage

(For packaging data sheets for Fire Control Parts, Equipment and Tools covered by this specification see Supplement 1 to this specification.)

(Copies of specifications, standards, packaging data sheets and drawings required by contractors in connection with specific procurement functions should be obtained from the procuring activity or as directed by the contracting officer.)

3. REQUIREMENTS

3.1 Cleaning.- Unless otherwise specified, cleaning shall be as specified in the Specification MIL-P-14232.

3.2 Drying.- Unless otherwise specified, drying shall be in accordance with any applicable method of Specification MIL-P-116.

3.3 Preservative application.- Unless otherwise specified, preservatives shall be applied in accordance with Specification MIL-P-14232.

3.4 Unit packaging.- Unit packaging shall be as specified in the packaging data sheet, Specification MIL-P-14232 and as specified herein.

3.4.1 Sequence of operations.- The sequence of operations recommended to accomplish unit packaging are indicated by numbers appearing in the first column under "PACKAGING REQUIREMENTS" on each packaging data sheet.

3.4.2 Coiling.- When coiling is required, it shall be accomplished in a manner that will result in the least possible cubage without damage to the item. The dimension for the item shown in the packaging data sheet shall be the coiled dimension.

3.4.3 Closure of fiberboard boxes.- When fiberboard boxes, conforming to class 2 or 3 of Specification PPP-B-636, are specified for unit containers for Levels A and B, they shall be closed as specified in the appendix of the box specification using tape conforming to Specification PPP-T-76.

3.5 Intermediate packaging.- Intermediate packaging shall be as specified in the packaging data sheet and Specification MIL-P-14232, except as follows:

a. Set-up paperboard boxes.- When set-up paperboard boxes conforming to Specification PPP-B-676 are specified for intermediate containers, they shall be closed as specified in the appendix of the box specification using gummed tape conforming to Specification UU-T-111.

b. Fiberboard boxes.- When fiberboard boxes conforming to class 2 or 3 of Specification PPP-B-636 are specified for intermediate containers, they shall be closed as specified in 3.4.3.

3.6 Packing.- Packing shall be as specified in the packaging data sheet and Specification MIL-P-14232, except as follows:

a. Strapping.- When fiberboard boxes, conforming to class 2 or 3 of Specification PPP-B-636, are specified for shipping containers, they shall be reinforced with filament tape conforming to type IV of Specification PPP-T-0097. The tape shall be applied as specified in the tape specification.

b. Use of intermediate containers as shipping containers.- When the intermediate container specified is a fiberboard box conforming to Specification PPP-B-636 and the total quantity to be shipped is equal to or less than the intermediate quantity, the fiberboard box shall be used as the shipping container.

3.7 Marking.- Marking shall be in accordance with MIL-STD-129 and Specification MIL-P-14232, except as follows:

a. Stock number.- The stock number shown on the packaging data sheet shall be verified prior to inclusion in the identification data on packages and shipping containers.

b. Bagged items.- When the unit package consists of a bag and container, the identification data shall be applied to each bag and container.

4. QUALITY ASSURANCE PROVISIONS

4.1 Quality assurance provisions shall be as specified in Specification MIL-P-14232.

5. PREPARATION FOR DELIVERY

(There are no applicable requirements.)

6. NOTES

6.1 Ordering data.- Procurement documents should specify the following:

(a) Title, number and date of this specification

(b) The level of protection required

(c) Title, number and date of applicable packaging data sheet

6.2 Logistics data.- "QTY PER PACK" shown under "LOGISTICS DATA" on each packaging data sheet shall be as specified; however, the quantities specified for intermediate packages and exterior pack do not apply when the number of items involved is less than the numbers specified. Data specified for exterior size, gross weight and cube shall not be used for contractual purposes since these figures are for logistics data only.

Check the source to verify that this is the current version before use.

6.3 Packaging container dimensions.- Container sizes specified under "PACKAGING REQUIREMENTS" in the packaging data sheets are inside dimensions.

6.4 CAUTION.- Caution should be exercised to avoid quantity production or procurement of packaging and packing supplies based on specified dimensions prior to development and approval of completed pilot packages and packs.

Notice: When Government drawings, specifications, or other data are used for any purpose other than in connection with a definitely related Government procurement operation, the United States Government thereby incurs no responsibility nor any obligation whatsoever; and the fact that the Government may have formulated, furnished, or in any way supplied the said drawings, specifications, or other data is not to be regarded by implication or otherwise as in any manner licensing the holder or any other person or corporation, or conveying any rights or permission to manufacture, use, or sell any invention that may in any way be related thereto.
