COMMERCIAL ITEM DESCRIPTION

ERASERS, STEEL

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification GG-E-671.

Salient characteristics:

The erasers shall consist of a steel knife blade and a handle.

The blade shall have a ground edge capable of being re-sharpened and honed without curling.

The overall length of the eraser shall be not less than 5-1/2 inches, nor more than 7 inches. The blade shall be 2-1/8 ± 1/8 inches long and the handle a minimum of 3-1/2 inches long.

Workmanship. The steel erasers shall be free from burrs and rough edges.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality asssurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. The packaging and packing shall be in accordance with normal commercial practice and shall assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.
