COMMERCIAL ITEM DESCRIPTION

THIMEROSAL TINCTURE

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers thimerosal tincture, N.F. contained in bottles and in swab ampules.

Salient characteristics.

The thimerosal tincture shall be in accordance with the applicable monograph in the National Formulary. The swab ampules shall conform to ANSI Z308.1-Minimum Requirements for Industrial Unit-Type First Aid Kits.

The issues of the National Formulary and ANSI Z308.1 in effect on the date of the solicitation shall be used to determine compliance with these requirements.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Packaging, packing, and marking. The packaging and packing shall be in accordance with normal commercial practice and shall assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.

The National Formulary Monographs are available from the American Pharmaceutical Association, 2215 Constitution Ave., NW, Washington, DC 20037.

ANSI standards are available from the American National Standards Institute, Inc., 1430 Broadway, New York, NY 10018.
