MIL-M-38789A
AMENDMENT - 1
5 January 1973

MILITARY SPECIFICATION

MANUALS, TECHNICAL: OVERHAUL INSTRUCTIONS AND OVERHAUL INSTRUCTIONS WITH ILLUSTRATED PARTS BREAKDOWN (For Various Equipment and Accessories)

This amendment forms a part of military specification MIL-M-38789A, 15 October 1970.

Page 5, paragraph 3.2.7. Delete the paragraph and substitute the following:

"3.2.7. Section VI Assembly. This section shall give detailed step-by-step instructions for the assembly of component parts into major sub-assemblies to form a complete end item. Assembly instructions to include all pertinent assembly criteria such as clearances, backlash dimensions, special torque values, peculiar safety wiring, end play and similar data, shall be provided. Appropriate tests for operation of a sub-assembly prior to final assembly shall be provided, including safety precautions to be observed. Instructions for rigging, adjustment and alignment, when required, shall be included in logical sequence. Approved corrosion-preventive compounds, special lubricants, gasket pastes, etc., shall be specified. Any inspections, lubrications, etc. which must be performed prior to mating of subassemblies which can not be accomplished at a later point in the assembly will be identified. Instructions for required assembly lubrication shall be included. Maintenance check requirements shall be integrated into the procedure, as applicable. Assembly instructions such as "Reverse the Disassembly Sequence" shall not be used. Reference to the applicable procedure for checkout of the item shall be made at the end of the assembly instructions."
