MILITARY SPECIFICATION
MANUALS, TECHNICAL: METHODS AND PROCEDURES TECHNICAL MANUALS, PREPARATION OF

This specification is approved for use by the Department of the Air Force and is available for use by all Departments and agencies of the Department of Defense.

1. SCOPE.

1.1 Scope. This specification covers the general requirements for preparation of General Series and Methods and Procedures Technical Manuals (MPTM) used primarily by the Air Force. In addition to "paper" delivery, this specification provides for electronic delivery of data through the use of the Document Type Definition (DTD) contained in Appendix B of MIL-M-38784.

2. APPLICABLE DOCUMENTS.

2.1 Government documents.

2.1.1 Specifications, standards and handbooks. The following specifications, standards and handbooks form a part of this document to the extent specified herein. Unless otherwise specified, the issues of these documents are those listed in the

Beneficial comments (recommendations, additions, deletions) and any pertinent data which may be of use in improving this document should be addressed to: HQ AFLC/ENCS, Wright-Patterson AFB, Ohio 45433-5000, by using the self-addressed Standardization Document Improvement Proposal (DD Form 1426) appearing at the end of this document or by letter.

issue of the Department of Defense Index of Specifications and Standards (DODISS) and supplement thereto, cited in the solicitation (see 6.2).

SPECIFICATIONS

Military

MIL-M-38784	Manuals, Technical: General Style and Format Requirements
MIL-P-38790	Printing Production of Technical Manuals: General Requirements for

(Unless otherwise indicated, copies of federal and military specifications, standards and handbooks are available from the Standardization Documents Order Desk, Building 4D, 700 Robbins Avenue, Philadelphia, PA 19111-5094.)

2.2 Order of precedence. In the event of a conflict between the text of this document and the references cited herein, the text of this document takes precedence. Nothing in this document, however, supersedes applicable laws and regulations unless a specific exemption has been obtained.

3. **REQUIREMENTS.**

3.1 General. The requirements of MIL-M-38784 and MIL-P-38790 shall apply unless otherwise specified herein. The manuals shall be prepared in 8 1/2 by 11 inch size.

3.2 Organization. MPTMs shall be divided into chapters when the information to be presented is so diverse, complex or lengthy that primary paragraphs do not provide adequate division.

3.3 Preparation for writing. The requirements of MIL-M-38784 apply.

3.4 Forms. Forms shall be included as figures. Normally, one or more actual entries will be shown in the figures and these entries shall be compatible with instructions given in the text. Each form shall be given a separate figure number and figure title in accordance with MIL-M-38784. If the reverse side or a continuation of a form is shown, it shall be considered a multisheet illustration and shall be numbered in accordance with MIL-M-38784.

Check the source to verify that this is the current version before use.

3.5 Abbreviations. Abbreviations shall be in accordance with MIL-M-38784 with the following exception: When giving instructions to fill in a blank on a form, the abbreviation shall be entered followed by the term spelled out and in parentheses; for example, "CF (carried forward)."

3.6 Slashes or virgules. These should not be used in narrative between two words, except "and/or" or applications of and/or (e.g. equipment/system) when no other words will do. They may be used between abbreviations, such as "HQ USAF/LGY."

3.7 Using and citing references. References shall be in accordance with MIL-M-38784 and the following:

a. Indefinite references shall not be used. Do not say "in current directive," "contained in existing regulations."

b. Reference to an Authorized Data Element (ADE) shall be made as follows: "AFM 300-4, ADE FU-5-34-IV." The Roman numeral suffix corresponds to the volume of AFM 300-4 in which the reference appears.

c. The words "see" or "refer to" shall not be used preceding a referenced directive enclosed in parentheses. Use "(AFR 8-2)," not "(see AFR 8-2)."

d. When referencing forms or parts thereof, the following shall apply:

(1) The first time a form is cited, give the form designation, number and title, all in capital letters; for example, "AF FORM 673, REQUEST FOR ISSUANCE OF PUBLICATION." Thereafter, give only the form designation and number in capital letters; for example, "AFTO FORM 673."

(2) To indicate plurality, use "AF FORMS 673" not "AF FORM 673s."

(3) When referencing a part, all elements shall be capitalized; for example, "AFTO FORM 350, PART II." After a part has been introduced, only the part number may be used if it is clear which form is concerned, such as "PART II."

3.8 Form entry instructions. When giving instructions for making entries on forms, say "Enter ...." Do not say "Enter the .... in this block" or "The .... will be entered in this column." For example, "a. BLOCK 1, DATE. Enter date."

Check the source to verify that this is the current version before use.

3.9 Use of notes. Within the text, as few notes as possible shall be used. When a short explanation or amplification of a word or statement is required, it should be included in parentheses and omit the word "Note" when possible. Information which is directive in nature shall not be placed in notes.

3.10 Text following headings. Text may be run in with any heading, except primary sideheads.

3.11 Paragraphs. All information concerning a subject should be grouped under one major numbered paragraph with subparagraphs as appropriate. Paragraphing shall be in accordance with MIL-M-38784; for example:

"1.1 AFTO FORM 349, MAINTENANCE DATA COLLECTION RECORD.

This form is used...

1.1.1 Completing AFTO FORM 349. The AFTO FORM 349 shall be completed as follows.

a. BLOCK 1, DATE. Enter date.

(1) The date will..."

4. QUALITY ASSURANCE PROVISIONS.

4.1 Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements (examinations and tests) as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in this specification where such inspections are deemed necessary to ensure supplies and services conform to the prescribed requirements.

4.1.1 Responsibility for compliance. All items shall meet all requirements of Sections 3 and 5. The inspection set forth in this specification shall become a part of the contractor's overall inspection system or quality program. The absence of any inspection requirements in the specification shall not relieve the contractor of the responsibility of ensuring that all products or supplies submitted to the Government for acceptance comply with all requirements of the contract. Sampling inspection, as part of manufacturing operations, is an acceptable

practice to ascertain conformance to requirements, however, this does not authorize submission of known defective material, either indicated or actual, nor does it commit the Government to accept defective material.

4.2 Quality conformance inspection. Material furnished in accordance with this specification shall be inspected by the contractor for conformance to the applicable requirements of this document in accordance with MIL-M-38784, MIL-P-38790 and, when a contractual requirement, MIL-M-85337.

4.3 Government inspection. Material furnished in accordance with this specification shall be subject to inspection, verification and approval or disapproval by the Government as specified by the terms of the contract. Inspection/verification will be performed by the Government prior to acceptance.

5. PACKAGING.

5.1 Packaging requirements. Packaging shall be in accordance with MIL-M-38784.

6. NOTES.

(This section contains information of a general or explanatory nature that may be helpful, but is not mandatory.)

6.1 Intended use. Technical manuals prepared in accordance with this specification are intended for use primarily within the Air Force to establish policy, methods and procedures relating to maintenance management or administration and to provide information and instructions pertaining to such subjects as preventative maintenance, periodic inspection and Air Force product improvement.

6.2 Acquisition requirements. Acquisition documents must specify the following:

a. Title, number, and date of this document.

b. Issue of the DODISS to be cited in the solicitation, and if required, the specific issue of individual documents referenced (2.1.1).

c. If responsibility for inspections shall be other than as specified herein (4.1).

Check the source to verify that this is the current version before use.

6.3 Technical manual acquisition. To acquire the technical manuals described herein, this specification must be listed in AF TMCR TM-86-01, which in turn is listed in the Contract Data Requirements List (DD Form 1423), except where DOD FAR Supplement 27.475-1 exempts the requirement for a DD Form 1423.

6.4 Subject term (key word) listing.

STANDARDIZATION DOCUMENT IMPROVEMENT PROPOSAL

INSTRUCTIONS

1. The preparing activity must complete blocks 1, 2, 3, and 8. In block 1, both the document number and revision letter should be given.
2. The submitter of this form must complete blocks 4, 5, 6, and 7.
3. The preparing activity must provide a reply within 30 days from receipt of the form.

NOTE: This form may not be used to request copies of documents, nor to request waivers, or clarification of requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
